Suggested Activities & Best Practices

- Students will develop a timeline that traces the migration and settlement patterns of North America.
- Read: *Hernan Cortez Conquers Mexico (1519-1521)* and *Aztec Chroniclers Describe the Spanish Conquest of Mexico (1519)*.
- Students will develop a chart that includes the political, economic, religious, and ethnic background of the colonist arriving in North America then write an essay comparing and contrasting them.
- Students will develop an explanation for the origin of slavery as a group.- Half the class will represent a pro-slavery faction while the other half represents an anti-slavery faction.
- Long essay: Develop a thoughtful and thorough historical argument that answers the question below. Begin your essay with a thesis statement and support it with relevant

historical evidence: Some historians have argued that European expansion into the Western Hemisphere in the 15th and 16th centuries was a great advancement for human civilization. Support, modify, or refute this interpretation, providing specific evidence to justify your answer.

- Debate questions and topics will be generated by the teacher.

Evidence of Student Learning - Checking for Understanding (CFU)

Students will understand that:

Early European exploration changes the "New World"

Native American culture is permanently altered by European expansion in North America

1588 marks a defining year in World History and how the English colonies will grow thereafter.

English colonization is highly regional and disorderly.

Colonial life sets the basis for many of the ideas and values the United States still holds dear.

Mercantilism and economic pressures exacerbate the problems of sectionalism and slavery in the early colonial period.

The idea of self government comes quickly in the New World and English colonies out of necessity.
