Curriculum Guide

Introduction to Culinary Arts

Grades 11-12

Baking and Pastry: Quick and Yeast Breads

Belleville Board of Education

102 Passaic Avenue

Belleville, NJ 07109

Prepared by: Mrs. J. Worster

Dr. Richard Tomko, Ph.D., M.J., Superintendent of Schools

Ms. LucyAnn Demikoff, Director of Curriculum and Instruction K-12

Ms. Nicole Shanklin, Director of Elementary Education K-8, ESL Coordinator K-12

Mr. George Droste, Director of Secondary Education

Board Approved: September 23, 2019

Unit Overview

All breads (baked goods) contain the same basic ingredients. Each ingredient performs a specific function. Ingredients must be measured precisely and mixed using the proper recipe technique. Breads are classified as quick or yeast breads depending on the leavening agent used. Varying ingredient proportions and mixing methods results in the distinctive differences among these baked products. Quick breads are mixed using the muffin or biscuit method of mixing. They are classified as batters or soft doughs. Yeast breads are made from doughs using yeast as leavening agents causing the dough to rise in a process called fermentation. They are kneaded to mix the ingredients and develop the gluten. Ingredient measuring skills are crucial in bread production.

Enduring Understanding

- A safe working environment is essential in food preparation.
- A sanitary working environment is essential in food preparation.
- Bake goods use the same basic ingredients, yet amounts and mixing methods differ.
- Ingredients in baked goods have certain functions.
- Baked goods recipes are a chemical formula and ingredients must be measured accurately.
- Baked goods can be frozen baked or unbaked as storage methods for freshness.
- Mixing methods are important in producing different types of baked goods.
- Yeast is a micro-organism and it needs certain factors to grow and multiply.
- Different flour types contain different amounts of gluten.

- Flour gluten content is important in producing different types of baked goods.
- Quick breads use chemical leavening agents.
- Professional food arrangement is important in presenting a culinary food order for sale.

Essential Questions

- Is the student able to specify and demonstrate ways to properly store different types of baked goods?
- Is the student able to identify and demonstrate the following mixing methods: muffin mixing method and biscuit mixing method to prepare baked goods?
- Can the student identify and explain the function of the basic ingredients used in yeast bread baking?
- Is the student able to demonstrate how to knead and shape bread dough? Does the student display effective interpersonal communication skills?
- Can the student identify, select, and properly use common kitchen utensils based on function for specific tasks?
- Is the student able to explain and demonstrate preparation principles that contribute to successful baking?
- Is the student able to prepare baked goods products using proper and safe baking techniques?
- Can the student modify recipes to bake in quantity?
- Can the student arrange baked goods in a professional presentation for culinary orders?
- Is the student able to identify and demonstrate the yeast rise method to prepare examples of yeast bread baked goods?
- Is the student able to identify and demonstrate the following mixing methods: muffin mixing method and biscuit mixing method to prepare examples of quick bread baked goods?

Exit Skills

Students will be able to:

- identify and explain the function of the basic ingredients used in yeast bread baking.
- demonstrate kneading and shaping of bread dough.
- identify and demonstrate the yeast rising method to prepare examples of yeast bread baked goods.
- measure recipe ingredients accurately.
- explain the function of recipe ingredients.
- identify and explain the differences in flour for baking.
- identify and explain the types of chemical leavening agents used in baking.
- explain storage methods for baked goods.
- mix ingredients using the muffin method of mixing.
- mix ingredients using the biscuit method of mixing.

- mix ingredients using the kneading method of mixing.

New Jersey Student Learning Standards (NJSL-S)

9.3.12.ED.1	Apply communication skills with students, parents and other groups to enhance learning and a commitment to learning.
9.3.12.ED.2	Demonstrate effective oral, written and multimedia communication in multiple formats and contexts.
9.3.12.ED.3	Use critical thinking to process educational communications, perspectives, policies and/or procedures.
9.3.12.ED.4	Evaluate and manage risks to safety, health and the environment in education and training settings.
9.3.12.ED.5	Demonstrate group collaboration skills to enhance professional education and training practice.
9.3.12.ED.10	Apply organizational skills and logic to enhance professional education and training practice.
9.3.12.ED.11	Demonstrate group management skills that enhance professional education and training practice.
12.9.3.HT-RFB.2	Demonstrate safety and sanitation procedures in food and beverage service facilities.
12.9.3.HT-RFB.4	Demonstrate leadership qualities and collaboration with others.
12.9.3.HT-RFB.7	Utilize technical resources for food services and beverage operations to update or enhance present practice.
12.9.3.HT-RFB.10	Apply listening, reading, writing and speaking skills to enhance operations and customer service in food and beverage service facilities.

Interdisciplinary Connections

LA.RST.11-12.3	Follow precisely a complex multistep procedure when carrying out experiments, taking measurements, or performing technical tasks; analyze the specific results based on explanations in the text.
LA.RST.11-12.4	Determine the meaning of symbols, key terms, and other domain-specific words and

phrases as they are used in a specific scientific or technical context relevant to grades 11-12 texts and topics.

LA.RST.11-12.7

Integrate and evaluate multiple sources of information presented in diverse formats and media (e.g., quantitative data, video, multimedia) in order to address a question or solve a problem.

LA.RST.11-12.9

Synthesize information from a range of sources (e.g., texts, experiments, simulations) into a coherent understanding of a process, phenomenon, or concept, resolving conflicting information when possible.

Learning Objectives

Student will demonstrate the ability to:

- list the ingredients used in baked goods and describe their function.
- compare and contrast the gluten in different types of flour and their function in baked goods.
- explain the growth of yeast as a leavening agent.
- activate yeast.
- explain and demonstrate the kneading mixing method .
- prepare a quality yeast bread product following a multi-step recipe.
- compare and contrast the mixing methods used in quick breads: muffin mixing method and biscuit mixing method.
- identify and demonstrate preparation techniques for quick breads according to their types: pour, drop, soft dough.
- identify and explain the leavening agents used in quick breads: chemical types and natural.
- produce various quick breads formulated by following a multi-step recipe.
- evaluate food product based on established food industry criteria.

Suggested Activities & Best Practices

- list the ingredients used in baked goods and describe their function.
- compare and contrast the gluten in different types of flour and their function in baked goods.
- explain the growth of yeast as a leavening agent.
- activate yeast.
- explain and demonstrate the kneading mixing method .
- prepare a quality yeast bread product following a multi-step recipe.
- compare and contrast the mixing methods used in quick breads: muffin mixing method and biscuit mixing method.
- identify and demonstrate preparation techniques for quick breads according to their types: pour, drop, soft dough.
- identify and explain the leavening agents used in quick breads: chemical types and natural.
- produce various quick breads formulated by following a multi-step recipe.
- evaluate food product based on established food industry criteria.

Assessment Evidence - Checking for Understanding (CFU)

- Common Benchmarks
 - Unit 7 Test-summative assessment
 - Unit Review/Test prep
 - Study Guides
 - Bread Products and Presentation-benchmark assessment
 - Evaluation Rubrics
 - Teacher Observation Checklist
 - Self Assessment
 - Explaining-formative assessment
 - Teacher Student Conference-alternate assessment
-
- Admit Tickets
 - Anticipation Guide
 - Common Benchmarks
 - Compare & Contrast
 - Create a Multimedia Poster
 - DBQ's
 - Define
 - Describe
 - Evaluate
 - Evaluation rubrics
 - Exit Tickets
 - Explaining
 - Fist- to-Five or Thumb-Ometer
 - Illustration
 - Journals

- KWL Chart
- Learning Center Activities
- Multimedia Reports
- Newspaper Headline
- Outline
- Question Stems
- Quickwrite
- Quizzes
- Red Light, Green Light
- Self- assessments
- Socratic Seminar
- Study Guide
- Surveys
- Teacher Observation Checklist
- Think, Pair, Share
- Think, Write, Pair, Share
- Top 10 List
- Unit review/Test prep
- Unit tests
- Web-Based Assessments
- Written Reports

Primary Resources & Materials

- Textbook: *Guide to Good Food*
- Textbook: *Culinary Essentials*
- Textbook – *Foundation of Restaurant Management*
- Video Instruction: Yeast Breads and Quick Breads
- Recipe Demonstrations
- Power Point Presentations
- Internet/Recipe Research

Ancillary Resources

- Demonstrations
- exit questions
- lab plans
- unit recipes
- Chapter worksheets/questions
- Filling out culinary learning log

Technology Infusion

- Google Classroom
- Interactive Smart TV Technology
- Technology Internet Research and Word Processing
- Video Demonstration
- Calculations
- Online Applications
- Power Point

Alignment to 21st Century Skills & Technology

- Communication Skills – English, Reading, Writing
- Mathematics
- Economics
- Science

- Social Skills/Interpersonal Skills

CRP.K-12.CRP1	Act as a responsible and contributing citizen and employee.
CRP.K-12.CRP2	Apply appropriate academic and technical skills.
CRP.K-12.CRP4	Communicate clearly and effectively and with reason.
CRP.K-12.CRP6	Demonstrate creativity and innovation.
CRP.K-12.CRP7	Employ valid and reliable research strategies.
TECH.8.1.12.B	Creativity and Innovation: Students demonstrate creative thinking, construct knowledge and develop innovative products and process using technology.
TECH.8.1.12.C.CS1	Interact, collaborate, and publish with peers, experts, or others by employing a variety of digital environments and media.
TECH.8.1.12.C.CS2	Communicate information and ideas to multiple audiences using a variety of media and formats.
TECH.8.1.12.E	Research and Information Fluency: Students apply digital tools to gather, evaluate, and use information.

21st Century Skills/Interdisciplinary Themes

- Communication and Collaboration
- ICT (Information, Communications and Technology) Literacy
- Interpersonal Communication
- Critical Thinking and Problem-Solving
- Financial, Economic, Business and Entrepreneurial Literacy
- Life and Career Skills

- Communication and Collaboration
- Creativity and Innovation
- Critical thinking and Problem Solving
- ICT (Information, Communications and Technology) Literacy
- Information Literacy
- Life and Career Skills
- Media Literacy

21st Century Skills

Students will be able to use their learning to ...

- Use effective oral and written communication strategies for creating, expressing, and interpreting information and ideas.
- Use critical and creative thinking strategies to facilitate innovation and problem-solving both independently and in teams.
- Use technology is used to access, manage, integrate, and disseminate information.
- Use effective leadership and teamwork strategies to foster collaboration and cooperation to accomplish goals.
- Develop life skills in order to achieve continuing success in various life roles related to continuing education, career development, and personal growth.
- Develop employable skills to build the capacity for successful careers.

- Civic Literacy
- Environmental Literacy
- Financial, Economic, Business and Entrepreneurial Literacy
- Global Awareness
- Health Literacy

Differentiation

Differentiations:

- Small group assignments
- Added time to complete assignments
- Pairing oral instructions with visuals
- Repeat directions as needed
- Reinforcing on-task behaviors and skill acquisition
- Reduce amount of assignments that are due
- Rephrase written directions
- Study guides provided
- Additional time for skill mastery
- Test read to student
- Visual presentation
- Small Group Instruction
- Additional Time

Hi-Prep Differentiations:

- Project-based Learning
- Problem-based Learning

Lo-Prep Differentiations

- Goal Setting with Students
- Mini Workshops to re-teach or extend skills

Special Education Learning (IEP's & 504's)

- Study Guides/Board Notes
- Additional Time for Skill Mastery
- Assistive Technology
- Computer or Electronic Device Utilizes
- Multi-sensory Instruction
- Preferential Seating
- Student Working with an Assigned Partner
- Small Group Instruction
- Check Work Frequently for Understanding
- Extended Time on Tests/Quizzes

- printed copy of board work/notes provided
- additional time for skill mastery
- assistive technology
- behavior management plan
- Center-Based Instruction
- check work frequently for understanding
- computer or electronic device utilizes
- extended time on tests/ quizzes
- have student repeat directions to check for understanding
- highlighted text visual presentation
- modified assignment format
- modified test content

- modified test format
- modified test length
- multiple test sessions
- multi-sensory presentation
- preferential seating
- preview of content, concepts, and vocabulary
- Provide modifications as dictated in the student's IEP/504 plan
- reduced/shortened reading assignments
- Reduced/shortened written assignments
- secure attention before giving instruction/directions
- shortened assignments
- student working with an assigned partner
- teacher initiated weekly assignment sheet
- Use open book, study guides, test prototypes

English Language Learning (ELL)

- Teach Key Concepts
 - Visual Teaching Aids: Videos, Illustrations, Pictures and Drawings
 - Use of note cards, study guides and open book during testing
 - Small Group Instruction
 - Student Working with an Assigned Partner
 - Preview of Content, Concepts, and Vocabulary
 - Check Work Frequently for Understanding
 - Peer Tutoring
-
- teaching key aspects of a topic. Eliminate nonessential information
 - using videos, illustrations, pictures, and drawings to explain or clarify
 - allowing products (projects, timelines, demonstrations, models, drawings, dioramas, poster boards, charts, graphs, slide shows, videos, etc.) to demonstrate student's learning;
 - allowing students to correct errors (looking for understanding)
 - allowing the use of note cards or open-book during testing
 - decreasing the amount of work presented or required
 - having peers take notes or providing a copy of the teacher's notes
 - modifying tests to reflect selected objectives
 - providing study guides
 - reducing or omitting lengthy outside reading assignments
 - reducing the number of answer choices on a multiple choice test
 - tutoring by peers
 - using computer word processing spell check and grammar check features
 - using true/false, matching, or fill in the blank tests in lieu of essay tests

At Risk

- using videos, illustrations, pictures, and drawings to explain or clarify
 - teaching key aspects of a topic. eliminate nonessential information
 - tutoring by peers
 - providing study guides
 - allowing students to correct errors (looking for understanding)
 - allowing products to demonstrate student's learning
 - using authentic assessments with real-life problem-solving
-
- allowing students to correct errors (looking for understanding)
 - teaching key aspects of a topic. Eliminate nonessential information
 - allowing products (projects, timelines, demonstrations, models, drawings, dioramas, poster boards, charts, graphs, slide shows, videos, etc.) to demonstrate student's learning
 - allowing students to select from given choices
 - allowing the use of note cards or open-book during testing
 - collaborating (general education teacher and specialist) to modify vocabulary, omit or modify items to reflect objectives for the student, eliminate sections of the test, and determine how the grade will be determined prior to giving the test.
 - decreasing the amount of work presented or required
 - having peers take notes or providing a copy of the teacher's notes
 - marking students' correct and acceptable work, not the mistakes
 - modifying tests to reflect selected objectives
 - providing study guides
 - reducing or omitting lengthy outside reading assignments
 - reducing the number of answer choices on a multiple choice test
 - tutoring by peers
 - using authentic assessments with real-life problem-solving
 - using true/false, matching, or fill in the blank tests in lieu of essay tests
 - using videos, illustrations, pictures, and drawings to explain or clarify

Talented and Gifted Learning (T&G)

- Create a plan to solve an issue presented in the class or in a text
- Advanced problem-solving
- Higher order, critical and creative thinking skills, and discovery
- Teacher-selected instructional strategies that are focused to provide challenge, engagement, and growth opportunities

- Utilize project-based learning for greater depth of knowledge

- Above grade level placement option for qualified students
- Advanced problem-solving
- Allow students to work at a faster pace
- Cluster grouping
- Complete activities aligned with above grade level text using Benchmark results
- Create a blog or social media page about their unit
- Create a plan to solve an issue presented in the class or in a text
- Debate issues with research to support arguments
- Flexible skill grouping within a class or across grade level for rigor
- Higher order, critical & creative thinking skills, and discovery
- Multi-disciplinary unit and/or project
- Teacher-selected instructional strategies that are focused to provide challenge, engagement, and growth opportunities
- Utilize exploratory connections to higher-grade concepts
- Utilize project-based learning for greater depth of knowledge

Sample Lesson

See first unit: Employability and Career Development for an example.
