Unit Overview

- Unit Overview: The lights, sounds, and visuals of the great white way will be examined. Beginning with a brief overview of musical theater history, students will be exposed to the many varieties of musical theater from the early 1900’s straight thru to today. One of the most iconic musicals, *West Side Story*, will be viewed and dissected to explore the form and function of the modern musical, and compared to Shakespeare’s great work, *Romeo and Juliet*. At the end of the unit, students will create a scene from an original musical.

Enduring Understanding

Definition: *Enduring Understandings*

Enduring understandings are statements summarizing important ideas and core processes that are central to a discipline and have lasting value beyond the classroom. They synthesize what students should understand—not just know or do—as a result of studying a particular content area. Moreover, they articulate what students should “revisit” over the course of their lifetimes in relationship to the content area.

- Musical theater has long been a creative outlet that reaches many audiences
- Musical theater has many different themes and messages, relevant to today’s society
- Supporting the Arts is our civic duty
- Famous events, literature, and people influence composers of musicals

Essential Questions

Essential Question: A question that lies at the heart of a subject or a curriculum and one that promotes inquiry and the discovery of a subject.

- How has history shaped Musical Theater?
- How did musical theater shape popular music?
- Why are *West Side Story* and *Romeo and Juliet* similar?
- What is the outline for a plot of a musical?
- How do I write a musical?

Learning Objectives

Tips on Writing Good Learning Objectives

Bloom's Taxonomy

Applying Bloom's Taxonomy to Learning Objectives

Effective learning objectives need to be observable and/or measureable, and using action verbs is a way to achieve this. Verbs such as “identify”, “argue,” or “construct” are more measureable than vague or passive verbs such as “understand” or “be aware of”. As you develop your syllabus focus on articulating clear learning objectives and then use these objectives to guide class assignments, exams and overall course assessment questions.

Sample Learning Objectives for a Lower Division Course

After completing Nutrition 101 *Humans and Food*, students will be able to:

- **Identify** nutrients found in common food sources via the product's nutrition label
- Use computer dietary analysis to assess a 2-day dietary intake and **summarize** results
- **Locate** nutrition-related information on the Internet and use **evaluative** criteria to **identify** reliability of the information

Action Verbs

Below are examples of action verbs associated with each level of the Revised Bloom's Taxonomy. These are useful in writing learning objectives, assignment objectives and exam questions.
