Unit Overview

- Rhythm allows musicians to perform together at the same time. Keeping a steady beat to simple and complex meters is the core to keeping any performing group together. Students will complete counting activities, allowing for the understanding of different methods to counting rhythms. Reading and writing rhythms will be explored in this unit. Students will understand basic rhythms, building up to complex rhythms that they will create and perform individually and in groups. Rhythmic patterns will be learned and recognized, making sight reading, and reading concert music easier over time. Students will critically listen to identify rhythmic patterns from a professional performance
