# Appendix of Technology Standards and Infusion Exemplars

Grade 6-8

**Belleville Board of Education** 

**102 Passaic Avenue** 

Belleville, NJ 07109

Prepared by: Ms. Karen L. Franciosa

Dr. Richard Tomko, Ph.D., M.J., Superintendent of Schools

Ms. LucyAnn Demikoff, Director of Curriculum and Instruction K-12

Ms. Nicole Shanklin, Director of Elementary Education

Mr. George Droste, Director of Secondary Education

Board Approved: September 23, 2019

#### **Appendix of Technology Standards and Exemplars**

The purpose of this appendix is to serve as a guide for educators to meet the technological requirements as per the NJDOE website:

New Jersey's Technology Standards consist of 8.1 Educational Technology and 8.2 Technology, Engineering, Design and Computational Thinking, which work symbiotically to provide students with the necessary skills for college and career readiness.

"Advances in technology have drastically changed the way we interact with the world and each other. The digital age requires that we understand and are able to harness the power of technology to live and learn". - International Society for Technology in Education

In this ever-changing digital world where citizenship is being re-imagined, our students must be able to harness the power of technology to live, solve problems and learn in college, on the job and throughout their lives. Enabled with digital and civic citizenship skills, students are empowered to be responsible members of today's diverse global society.

Readiness in this century demands that students actively engage in critical thinking, communication, collaboration, and creativity. Technology empowers students with real-world data, tools, experts and global outreach to actively engage in solving meaningful problems in all areas of their lives. The power of

technology discretely supports all curricular areas and multiple levels of mastery for all students.

#### **Technology Infusion Exemplars by Discipline for Grades 6-8**

Upon completion of this sections, please remove all remaining descriptions, notes, outlines, examples and/or illustrations that are not needed or used.

What **Technology Infusion** and/or strategies are integrated into this unit to enhance learning? Please list all hardware, software and strategies. Please find a technology pedagogy wheel for assistance while completing this section.

#### ELA:

- Digital Brain Dumps with Flipgrids and Socrative.
- Caption This! A fun, deep-thinking Google Drawings activity,
- "Add and Pass" activity in docs- Digital version of adding onto a story and passing to next group of students until finished. Begin with an image on a blank document (can be a scene from a story or even a historical figure).
- Create an online portfolio including a social media page and business card for a fictional character identity using Canva.
- Google Classroom for organization of work, communication with students and families, efficiency, 21st century learning experience, and for flipped classroom integration
- Google Docs-essay writing for all types (narrative, argumentative, compare/ contrast, autobiographical writing)
- Google Doc writing for short constructed open-ended writing, peer review and teacher online feedback using editing tools
- Googe Forms surveys, Quiz (beta form for security and intregrity)
- Pearson Realize for online scored essay, teacher feedback and review, and rubric, various texts
- Pearson Realize Grammar and Convention online tools for remediation, various texts
- Google Suite for Education for all text
- Amazing Facts About Water: Grade 7- A Long Walk To Water
- NGWA The Ground Water Association : Grade 7- A Long Walk To Water
- Word Clouds: Grade 7- A Long Walk To Water- Use 1 or 2 interesting facts about water and turn them into a word cloud. Use sites above.
- <u>Book Trailer: A Long Walk To Water</u>- After viewing the book trailer of *A Long Walk to Water*, have students create a book trailer of their own.
- An Interview With Salva Dut: Grade 7- "A Long Walk To Water"
- Salva's Story: Grade 7- "A Long Walk To Water"
- Linda Sue Park interviews Salva Dut Oct. 2014: Grade 7- "A Long Walk to Water"

- Create a timeline of major events in Salva's journey in, "A Long Walk to Water" (use Google Docs timeline template).
- Create a Google slide show illustrating a list of striking quotes from, "A Long Walk to Water".
- "The Monkey's Paw" Grade 8 Digital Escape Room assignment as closure
- "War Party" Grade 8, use of The Oregon Trail as gaming tool to connect/ authenticity text to self
- "The Treasure of Lemon Brown" Grade 8, use of PearDeck as CFU for character motivation and evaluation
- "The Tell-Tale Heart" Grade 8, use of Flipgrid to record written speeches based on the psyche and the diagnosis of the main character
- Nothing But the Truth- Grade 8, use of PollEverywhere, Google Forms, for discussion
- Night Grade 8, use of Google Lit Trips to connect students to real-world map application
- Blog Journaling using various texts
- Propaganda poster using Canva as a design tool
- Create Multimedia presentation using Google Slides (Powerpoint), Prezi, or Google Slides, for various texts
- E-books audio read-alouds for various texts
- Create a Book Review using Google Docs Template for use with Book Report or summative review of various texts
- Use of Quizlet for various text review to make flashcards, personal test review, gaming experience review that prompts a 1:1 response
- Readworks.org for connection to curriculum, text sets that compliment class readings
- Commonlit.org for connection to curriculum, text sets that compliment class readings
- ScholasticScope online for nonfiction narratives connection to curriculum, as ways to compliment class readings
- Story telling-Comic Life visual representation showing summary and summative understanding of text
- Pic Collage
- Kahoot it! or Plickers as CFU for various text and assignments
- Online quizzes in EdModo and Google Forms (beta)
- Twitter for Educators commenting applicable to various texts
- Listening to Podcasts applies to any text, where available
- Use of Webquests applies to any text, where available

#### MATH:

- Digital Brain Dumps with Flipgrid and Socrative
- Khan Academy- Algebra: Linear Equations
- KAHOOT -Math by Kahoot- Algebra
- KAHOOT- Math by Kahoot- Geometry
- KAHOOT- Scientific Notation
- QUIZIZZ-(can sync with Google Classroom)-Geometry-Quadrilaterals and Lines
- Science of Hockey: Geometry- Angels.
- ProdigyMathGames
- A+ Click- Math and Logic Problems
- Powtoons: Basics to Geometry 1-Quadrilaterals
- Create a Powtoon presentation on grade level content material.
- Mathsnacks.com- Education, animations, and interactive tools for Middle School Math concepts.
- http://mathgoodies.com

- http://purplemath.com
- http://IXL.com/math
- Dan Meyer's Three-Act Lessons
- Calculator/Graphing calculator
- <u>Desmos.com</u>:Graph functions, plot data, evaluate equations.

#### SCIENCE:

- Digital Brain Dumps with Flipgrid and Socrative.
- Google Docs Spreadsheet- What's in Seawater?: Students utilize the Google Docs spreadsheet application to create a pie chart showing the composition of seawater.
- Google Docs Spreadsheet: **Ocean Temperature**: Students utilize the Google Docs Spreadsheet application to create a column chart showing the average mean temperature of the ocean from 1880 to the present. This allows scientists to identify trends in the change in global ocean temperature over time. Students will need to research statistics or statistics should be given to students by teacher.
- Google Drawing: National Weather Map: Students utilize the Google drawing application to create a National Weather Map.
- Create a Prezi presentation explaining the various resources in the ocean.
- States of Matter WebQuest: Students will use Internet research to gather information about states of matter and complete a WebQuest. Use www.chwm4kids.com for information.
- Interactive notebook activity on global winds.
- Flocabulary: Watercycle
- Create a Google sideshow on how clouds form and their classification.
- Create and film a weather forecast using data collected from weather maps.
- Create a Flocabulary Rap
- Create a PowToon on grade level content material
- BrainPop: Water Cycle
- BrainPop: Clouds
- Khan Academy: The Coriolis Effect
- Khan Academy: Making of A Cloud
- <u>Ask a Biologist</u>: Explores the fascinating world of biology through puzzles, quizzes, and games. A real biologist will also answer your biology questions.

#### SOCIAL STUDIES:

- Digital Brain Dumps with Flipgrids and Socrative.
- Caption This! A fun, deep-thinking Google Drawing activity.
- Create an online portfolio including a social media page and business card for an historian using Canva.
- DOGO News
- Newsela.com
- Kahoot.com: US History by Kahoot
- BrainPop: Egyptian Pharaohs
- <u>HippoCampus.org</u>: <u>History/Government</u> (Core academic website delivering multimedia content on content area subjects)
- HippoCampus.org: Manifest Destiny: The Expansion of the United States.
- Khan Academy: Dred Scott v. Sanford (video)
- Teaching Tolerance.org: Teaching Hard History: American Slavery

- Teaching Tolerance.org: Teaching Hard History: American Slavery Podcasts
- Create a digital newspaper article chronicling events at the Alamo.
- Construct and narrate a dialog a conversation between a settler in Jamestown and settler in Plymouth.
- Khan Academy: Manifest Destiny: causes and effects of westward expansion
- Create a digital political cartoon supporting/condemning spirit of Manifest Destiny.
- Khan Academy: The U.S. Constitution
- Create a PowToon presentation on the 3 branches of government and checks and balances.
- Prezi: Develop a civilization based on the 7 characteristics of a civilization
- Construct and narrate a digital journal entry explaining the life of a member of one of the social classes in Egypt.
- Create a digital comic strip about the Persian Wars, including the Ionian Revolt and each of the battles of war.
- Students will use primary sources acquired through research based on the question, "Is nonviolence an effective strategy?"
- Select a famous Confucius quote and explain the meaning of the quote and how it relates to today. Use Google slides to illustrate through Google images the meaning of the quote from that era and the meaning of the quote today.
- <u>Ben's Guide to the U.S. Government</u>- Kid's aged 4-14 years and up can learn about the United States government, how laws are made and elections work, Ben Franklin's life, and the importance of historical documents; and play related games.
- Create a Flocabulary Rap

#### PE/HEALTH:

- BrainPop: Sports and Fitness
- BrainPop: Nutrition
- BrainPop: Personal Health
- Pedestrian Safety: www.safekids.org
- First Aid: http://kidshealth.org/parent/firstaid safe
- Bullying: www.stopbullying.gov
- http://kidshealth.org/teen/food fitness/
- Nutrition Resource: www.kidshealth.org/kid/nutrition/
- www.choosemyplate.gov
- Create a word cloud on Nutrition: Word Clouds
- Create a word cloud on a Sport: Word Clouds
- Create a Nutrition pamphlet using an online template.
- Create a PE pamphlet using an online template.
- Create a digital escape room activity for students.

| K-2       |                                | onal thinking and programming as                     | 8.2.2.E.1       | List and demonstrate the steps to an everyday task.  |

|      | tools used in design and engineering.  | 8.2.2.E.2  | Demonstrate an understanding of how a computer takes in of written commands and then interprets and displays info  |
|------|--|------------|--|
|      |  | 8.2.2.E.3  | Create algorithms (a sets of instructions) using a pre-defin (e.g., to move a student or a character through a maze).  |
|      |  | 8.2.2.E.4  | Debug an algorithm (i.e., correct an error).   |
|      |  | 8.2.2.E.5  | Use appropriate terms in conversation (e.g., basic vocabuloutput, the operating system, debug, and algorithm).   |
| 3-5  | Computational thinking and computer programming as tools used in design and engineering. | 8.2.5.E.1  | Identify how computer programming impacts our everyday live  |
|      |  | 8.2.5.E.2  | Demonstrate an understanding of how a computer takes input o stores the data through a series of commands, and outputs information of the stores of the data through a series of commands. |
|      |  | 8.2.5.E.3  | Using a simple, visual programming language, create a program and procedures to generate specific output.  |
|      |  | 8.2.5.E.4  | Use appropriate terms in conversation (e.g., algorithm, program procedures, memory, storage, processing, software, coding, pro   |
| 6-8  | Computational thinking and computer programming as tools used in design and engineering. | 8.2.8.E.1  | Identify ways computers are used that have had an impact across activity and within different careers where they are used.   |
|      |  | 8.2.8.E.2  | Demonstrate an understanding of the relationship between hard  |
|      |  | 8.2.8.E.3  | Develop an algorithm to solve an assigned problem using a spear and use peer review to critique the solution.  |
|      |  | 8.2.8.E.4  | Use appropriate terms in conversation (e.g., programming, lang ROM, Boolean logic terms).  |
| 9-12 | Computational thinking and computer programming as tools used in design and engineering. | 8.2.12.E.1 | Demonstrate an understanding of the problem-solving capacity world.  |
|      |  | 8.2.12.E.2 | Analyze the relationships between internal and external co   |
|      |  | 8.2.12.E.3 | Use a programming language to solve problems or accomprobotic functions, website designs, applications, and game   |
|      |  | 8.2.12.E.4 | Use appropriate terms in conversation (e.g., troubleshootin diagnostic software, GUI, abstraction, variables, data type statements).   |
