Unit Overview

During Unit 5, students will explore different themes and scenarios that will guide them in formulating their own thoughtful responses to this unit's big idea: "How can people make a difference?" Encourage students to tell about a time that someone made a difference in their lives. Children may describe events such as a friend or family member cheering them up when they were sad, a teacher helping them with a difficult topic, or a community group helping improve their neighborhood. Each week students will produce a project related to the Essential Question. They will then develop one of these projects more fully for the Unit Research Project. Through their research, students will focus their attention on comparing information across sources and recalling, paraphrasing, and presenting information they have found. As students read and reread each week for close reading of text, they take notes, cite text evidence to support their ideas and opinions, and write short analytical responses. After reading, students build writing fluency, analyze model responses, craft longer responses incorporating text evidence, and focus on writing traits.

Enduring Understandings

Students will understand that...

- citizens have rights, or things they are allowed to do, and responsibilities, or things they are expected to do as part of the community.
- when we cooperate, we listen and pay attention to the people around us.

- heroes are people we look up to because of the brave and special things they do. We can discover why people are heroes when we think about what they do.
- we can protect the Earth by not polluting.
- rules keep us safe.

Essential Questions

- What do good citizens do?
- How do people get along?
- What do heroes do?
- How can we protect the earth?

- Why are rules important?
- How can people make a difference?

Differentiation

- **Content:** Content will be differentiated through use of multilevel readers for Basic Skills students, Special Education students, Talented and Gifted students, as well as ELL students. The readers are all focused upon the same content, however the lexiles differ depending upon the abilities of the student.
- **Process:** The process will be differentiated through supplying three tiers of questioning for basic, intermediate, and advanced learners. Additionally, students will be supplied with sentence stems and differentiated student workbooks to foster student success of the established goals.
- **Product:** The product will be differentiated because student work will be based upon their reading levels and lexiles. Students will be given choice for projects that appeal to their various learning styles to promote confidence and success amongst the students.
- During **Readers Workshop**, teachers will incorporate differentiation through guided reading, the use of leveled readers and strategy groups. Students also have the choice of selecting their own books to read independently. This can be a controlled choice of books so that they are reading on their independent reading level.
