Unit Overview

During Unit 4, students will explore different themes and scenarios that will guide them in formulating their own thoughtful responses to this unit's big idea: "How do different environments make the world an interesting place?" Students will discuss different environments that they have seen or visited. They may describe places such as the beach, the desert, or forests. Each week students will produce a project related to the Essential Question. They will then develop one of these projects more fully for the Unit Research Project. Through their research, students will focus their attention on comparing information across sources and recalling, paraphrasing, and presenting information they have found. As students read and reread each week for close reading of text, they take notes, cite text evidence to support their ideas and opinions, and write short analytical responses. After reading, students build writing fluency, analyze model responses, craft longer responses incorporating text evidence, and focus on writing traits.

- there are different regions around the world that have different climates such as deserts, polar regions, and praire regions.
- Earth has different land features.

- animals and other elements of nature are exciting.

Differentiation

- **Content**: Content will be differentiated through use of multilevel readers for Basic Skills students, Special Education students, Talented and Gifted students, as well as ELL students. The readers are all focused upon the same content, however the lexiles differ depending upon the abilities of the student.

- **Process**: The process will be differentiated through supplying three tiers of questioning for basic, intermediate, and advanced learners. Additionally, students will be supplied with sentence stems and differentiated student workbooks to foster student success of the established goals.

- **Product**: The product will be differentiated because student work will be based upon their reading levels and lexiles. Students will be given choice for projects that appeal to their various learning styles to promote confidence and success amongst the students.

- During **Readers Workshop,** teachers will incorporate differentiation through guided reading, the use of leveled readers and stratedy groups. Students also have the choice of selecting their own books to read independently. This can be a controlled choice of books so that they are reading on their independent reading level.

- Through **Writers Workshop**, teachers will conference with students in order to individualize instruction. This can be done through one-on-one conferencing or with small conference groups. During this time, students can choose their own writing topic within the unit's genre.
