## **Unit Overview**

---

During Unit 1, students will explore different themes and scenarios that will guide them in formulating their own thoughtful responses to this unit's big idea: "How do families and friends learn, grow, and help one another?" Students will be encouraged to think about the friendships they have. Students will discuss how friends depend on one another and how their actions can demonstrate friendship. Each week students will produce a project related to the Essential Question. They will then develop one of these projects more fully for the Unit Research Project. Through their research, students will focus their attention on comparing information across sources and recalling, paraphrasing, and presenting information they have found. As students read and reread each week for close reading of text, they take notes, cite text evidence to support their ideas and opinions, and write short analytical responses. After reading, students build writing fluency, analyze model responses, craft longer responses incorporating text evidence, and focus on writing traits.

## **Enduring Understandings**

---

Students will understand that...

- friends can teach each other what they know.
- friends help each other do things. For example, the friends in the photograph can help each other read the map.
- friends can help us feel better when we are upset.
- families around the world may have the same or different holidays, traditions, and language, or way of speaking. These things make up a family's culture, or way they live.
- every animal has needs, or things it must have to live and grow.
- people can care for, or look after, animals.
- a friendship is a relationship, or a connection, between two friends.
- family members may include mothers, fathers, sisters, brothers, grandparents, or anyone else in an extended family.

## **Essential Questions**

---

- How do friends depend on each other?
- How are families around the world the same and different?
- How can a pet be an important friend?

- How do we care for animals?
- What happens when families work together?
- How do families and friends learn, grow, and help one another?

## Exit Skills

---

By the end of Unit 1: Friends and Family, students will be able to...

- use reading strategies to a comprehend text.
- use reading strategies to ask questions about text.
- identify characteristics of different types of genres.
- read and write grade level specific high-frequency words.
- apply grade level phonics skills.
- utilize writing traits to create grade appropriate writing pieces.

- During **Readers Workshop**, teachers will incorporate differentiation through guided reading, the use

of leveled readers and strategy groups. Students also have the choice of selecting their own books to read independently. This can be a controlled choice of books so that they are reading on their independent reading level.

## **Sample Lesson**

---

Using the template below, please develop a **Sample Lesson** for the first unit only.

**\*\*Please see full sample lesson for Readers Workshop in the curriculum guide\*\***

**Unit Name:** (Taken from Unit 3) Live an Learn

**NJSLS: See Below**

**Interdisciplinary Connection:** Social Studies

**Statement of Objective:** Students will reread when they do not comprehend certain parts of a story.

**Anticipatory Set/Do Now:** "Boys and girls, it's time to THINK NOW! As you join me on the carpet, think about yesterday's skill, \_\_\_\_\_, and how you applied it to your independent reading book."

**Learning Activity:**

Teacher will give a CONNECTION to what was taught prior, and give students a brief description of today's strategy and why it's important.

Teacher will then model the strategy. The teacher will display page 232 in the Literature Anthology of the story Mr. Putter and Tabby See the Stars.

- Begin reading and stop at page 235. “I’m confused by the last sentence on page 235. It says that one of the logs could not sleep. I know that a log is part of a dead tree. It’s not something that sleeps! There must be a different meaning for log here. I am going to reread this page to make sure I understand what the author means.”
- Teacher models by rereading page 235. “It looks like Mr. Putter and his cat Tabby love to sleep. On page 235, it says “But one night, one of the logs could not sleep.” I don’t think the author is actually stating that a log is asleep. Now I get it! When someone is sound asleep, they look like a log. A log can not move and is still. This describes how the characters looked while sleeping. I am so glad I took the time to reread this page because now I understand what the author meant. Did you see how while I was reading, I became confused, stopped, reread, and then was able to better understand what the author meant?”
- Teacher will model the strategy again using pages 198 and 199 in your Readers Writers Workshop book and begin reading *Starry Night*. Teacher will purposely mess up, omit a word/line, etc. while reading. Teacher will think aloud and ask the students to turn and talk to a partner to figure out what was wrong.
- As the students are talking, listen in on some of their conversations by walking around. After two minutes, say: “Boys and girls, I was listening to your conversations and you helped me realize that I completely skipped a word/line while I was reading aloud. After hearing you reread, we better understand the story.”
- The teacher will then link the minilesson to the independent reading. The teacher again will identify today's strategy and tell the students: “When you go off to read today, you’re going to reread parts of a story that you do not understand. This will help you become better readers. Now that you know this is something that good readers do, you can use this skill whenever you read.”
