Unit Overview

In Unit Four, ELLs explore various environments that they find interesting. Topics covered in Unit Four include different places, Earth changes, how our culture makes us special, folktales about nature, and poems about nature.

"Wonders for English Learners offers instruction specifically designed to create learning experiences that inspire confidence, increase student engagement, and build language skills. Lessons emphasize building speaking, listening, reading, and writing skills to improve both academic and social language and accelerate progress in the core classroom. All instruction connects with core Wonders content, providing a seamless pathway for students to access content at their proficiency level, build understanding, and engage in the core classroom."

Exit Skills

By the end of this unit, ELLs will be able to:

- Develop oral vocabulary to use when talking about a topic.
- Ask and answer questions after actively listening to a read-aloud
- Ask and answer questions about key details in a text
- Read with sufficient accuracy and fluency to support comprehension
- Demonstrate comprehension of text through written response to a prompt
- Elaborate and ask questions to request clarification
- Support ideas with text evidence
- Determine the main idea and supporting details

- Apply grade level phonics skills

Enduring Understanding

Students discover various different environments around the world and what makes each environment unique. This would lead to a greater appreciation for the diversity in our world.

Essential Questions

- What makes different parts of the world different?
- How does the Earth change?
- How are kids around the world different?
- How can we understand nature?
- What excites us about nature?

Interdisciplinary Connections

SCI.K-2.5.3.2	All students will understand that life science principles are powerful conceptual tools for making sense of the complexity, diversity, and interconnectedness of life on Earth. Order in natural systems arises in accordance with rules that govern the physical world, and the order of natural systems can be modeled and predicted through the use of mathematics.
SCI.K-2.5.3.2.C	All animals and most plants depend on both other organisms and their environment to meet their basic needs.
SCI.K-2.5.3.2.C.2	Identify the characteristics of a habitat that enable the habitat to support the growth of many different plants and animals.
SCI.K-2.5.3.2.C.3	Communicate ways that humans protect habitats and/or improve conditions for the growth of the plants and animals that live there, or ways that humans might harm habitats.
SCI.K-2.5.3.2.C.b	A habitat supports the growth of many different plants and animals by meeting their basic needs of food, water, and shelter.
SCI.K-2.5.3.2.C.c	Humans can change natural habitats in ways that can be helpful or harmful for the plants and animals that live there.
SCI.K-2.5.4.2.F.a	Current weather conditions include air movement, clouds, and precipitation. Weather conditions affect our daily lives.
