Differentiation

- **Content:** Content will be differentiated through use of multilevel readers for Basic Skills students, Special Education students, Talented and Gifted students, as well as ELL students. The readers are all focused upon the same content, however the lexiles differ depending upon the abilities of the student.
- **Process:** The process will be differentiated through supplying three tiers of questioning for basic,

intermediate, and advanced learners. Additionally, students will be supplied with sentence stems and differentiated student workbooks to foster student success of the established goals.

- **Product:** The product will be differentiated because student work will be based upon their reading levels and lexiles. Students will be given choice for projects that appeal to their various learning styles to promote confidence and success amongst the students.
- During **Readers Workshop**, teachers will incorporate differentiation through guided reading, the use of leveled readers and strategy groups. Students also have the choice of selecting their own books to read independently. This can be a controlled choice of books so that they are reading on their independent reading level.
- Through **Writers Workshop**, teachers will conference with students in order to individualize instruction. This can be done through one-on-one conferencing or with small conference groups. During this time, students can choose their own writing topic within the unit's genre.
