Unit Overview

"Wonders for English Learners offers instruction specifically designed to create learning experiences that inspire confidence, increase student engagement, and build language skills. Lessons emphasize building speaking, listening, reading, and writing skills to improve both academic and social language and accelerate progress in the core classroom. All instruction connects with core Wonders content, providing a seamless pathway for students to access content at their proficiency level, build understanding, and engage in the core classroom."

In Unit One, ELLs discover how learning about new things helps us to grow and helps us find out about the world around us. Topics covered in Unit One include story time, traditions, communities, inventions, and landmarks.

Enduring Understandings

1. Stories will teach students lessons, learn new skills, illustrate great writing, and inspire them to learn about other people.
2. Traditions are passed down from generation to generation, and help to teach important family customs intertwined with culture.
3. People from different cultures contribute to a community by adding interesting customs and beliefs for others to share.

4. Every new invention begins with a problem and a new idea.

5. Learning can help us know more about life and our surroundings as we continue to grow and develop. Asking questions and being inquisitive helps to learn and answers questions that we develop independently.

Essential Questions

During Unit 1, students will explore different themes and scenarios that will guide them in formulating their own thoughtful responses to this unit's BIG IDEA: "How can learning help us grow?" Below, see how the BIG IDEA is explored through weekly "Concepts" and "Essential Questions" which form the basis for exploration and discussion throughout the week.

Sample Lesson

Unit Name: Unit 1, Week 1: What can stories teach you?

NJSLS:

Interdisciplinary Connection: Reading and Writing

Statement of Objective:

Build on understanding of homophones and the words in and info.

Expand on lesson vocabulary.

Describe how stories can teach us new things.

Anticipatory Set/Do Now: Say: *This week we will be looking at the language in the story "Bruno's New Home." Discussing the language in the text will help you understand what is happening in the story. Today we will learn how*

stories can teach readers a lesson.

Learning Activity:

What can stories teach you?

Use the Graphic Organizer Look at the photograph and graphic organizer. Explain that the photograph shows a picture of a girl reading a book. Point out that she seems to be enjoying the story she is reading. *Why might you like reading a story? What do stories tell us?* Review *inspired* (cognate: inspiró) and *discovery*. Explain that a reader can be inspired to think differently by the events in a story. Show how a character's experiences can lead the reader to a discovery. Guide students to use the graphic organizer to show how stories teach us through the actions and experiences of characters.

Talk About It Focus students' attention on the photograph and guide them in discussing what they see. Have students write words about stories in the web on page 5 and share their answers with the class. Use the following sentence frames to guide student responses: **When I think of stories, I think of characters, places, and events.**

What type of book do you think the girl is reading? Why do you think so? Have volunteers talk about funny stories they have read or heard. Then have students discuss what they have learned from stories. Guide students by talking about lessons that a character might teach a reader, such as overcoming challenges or facts about animals or places. Then have them role play the girl describing what she learned from the story. *What discovery did the girl make? How did the story inspire her?* Have students take turns presenting their ideas.
