

Unit 5: We Are All Connected - Time and When We Do Our Daily Routines

Content Area: **World Language**
Course(s): **World Language Gr. 4**
Time Period: **MayJun**
Length: **34 days Grade 4**
Status: **Published**

Unit 5: We Are All Connected - Time and When We Do Our Daily Routines **Department of Curriculum and Instruction**

Belleville Public Schools

Curriculum Guide

Fourth Grade World Language

Unit 5: We Are All Connected - Time and When We Do Our Daily Routines

Belleville Board of Education

102 Passaic Avenue

Belleville, NJ 07109

Prepared by: Ms. Catherine Maucione and Ms. Lourdes Chavez

Dr. Richard Tomko, Ph.D., M.J. Superintendent of Schools

Ms. LucyAnn Demikoff, Director of Curriculum and Instruction K -12

Ms. Nicole Shanklin, Director of Elementary Education

Mr. George Droste, Director of Secondary Education

Board Approved: September 23, 2019

Unit Overview

Unit 5 extends the language foundation students built in previous units. Students will use their acquired fluency with numbers to enable them to tell time in the target language. Students will practice daily routine phrases by learning to ask and answer questions regarding what time they perform them. The unit's essential questions will encourage students to see how they are connected to children from around the world through the shared experience of time and schedules of daily routines. Language Arts and Social Studies standards will be addressed throughout the lessons depicting stories and commentaries even within the classroom.

Enduring Understandings

When children eat, sleep, play and study in different countries can vary.

Some people in other countries tell the time using a 24 hour system.

People in different cultures distribute activities during the day in different ways.

Climate and geography affect the way we use our time.

Essential Questions

Do children from other countries eat, sleep, play and study at the same time I do?

Why do people from other countries sometimes report time as 14:30?

How can I use the target language to exchange information about the time and my schedule of daily routines?

How can I arrange meeting times in the target language?

Exit Skills

Students will be able to:

Ask and answer "What time is ?" in a complete sentence based on the time displayed on the clock.

Write down the time in a complete sentence based on the time displayed on the clock.

Count by fives to 55 in the target language.

Count from 1 to 60 in the target language.

Write down the correct number when given or spoken by the teacher.

Draw the hands of the clock based on the written description or spoken time by the teacher.

New Jersey Student Learning Standards (NJSL)

WL.7.1.NM.A.2	Demonstrate comprehension of simple, oral and written directions, commands, and requests through appropriate physical response.
WL.7.1.NM.A.3	Recognize a few common gestures and cultural practices associated with the target culture(s).
WL.7.1.NM.A.C.4	Many products and practices related to home and community are shared across cultures; others are culture - specific. (Topics that assist in the development of this understanding should include, but are not limited to: home life, places in the community, activities within the community, and travel.)
WL.7.1.NM.A.C.7	Learning about age - and developmentally appropriate content that is of high interest to students and has a direct connection to the cultural contexts of the target language cultivates an awareness of the shared human experience. (Content that assists in the development of this understanding should include, but is not limited to: all content areas and popular culture.)
WL.7.1.NM.A.L.1	The Novice - Mid language learner understands and communicates at the word level and can independently identify and recognize memorized words and phrases that bring meaning to text.
WL.7.1.NM.B.L.1.a	Respond to learned questions.
WL.7.1.NM.B.L.1.b	Ask memorized questions.

Interdisciplinary Connections

LA.RL.4.1	Refer to details and examples in a text and make relevant connections when explaining what the text says explicitly and when drawing inferences from the text.
MA.4.4	In Grade 4, instructional time should focus on three critical areas: (1) developing understanding and fluency with multi-digit multiplication, and developing understanding of dividing to find quotients involving multi-digit dividends; (2) developing an

understanding of fraction equivalence, addition and subtraction of fractions with like denominators, and multiplication of fractions by whole numbers; (3) understanding that geometric figures can be analyzed and classified based on their properties, such as having parallel sides, perpendicular sides, particular angle measures, and symmetry.

MA.4.4.3

Students describe, analyze, compare, and classify two-dimensional shapes. Through building, drawing, and analyzing two-dimensional shapes, students deepen their understanding of properties of two-dimensional objects and the use of them to solve problems involving symmetry.

SOC.K-4.1.1

Chronological Thinking

Learning Objectives

Upon completion of this section, please remove all remaining descriptions, notes, outlines, examples and/or illustrations that are not needed or used.

Students will be able to:

Ask and answer "What time is it?" in a complete sentence based on the time displayed on the clock using the target language.

Write down the time in a complete sentence based on the time displayed on the clock in the target language.

Count by fives in the target language.

Count from 1 to 60 in the target language.

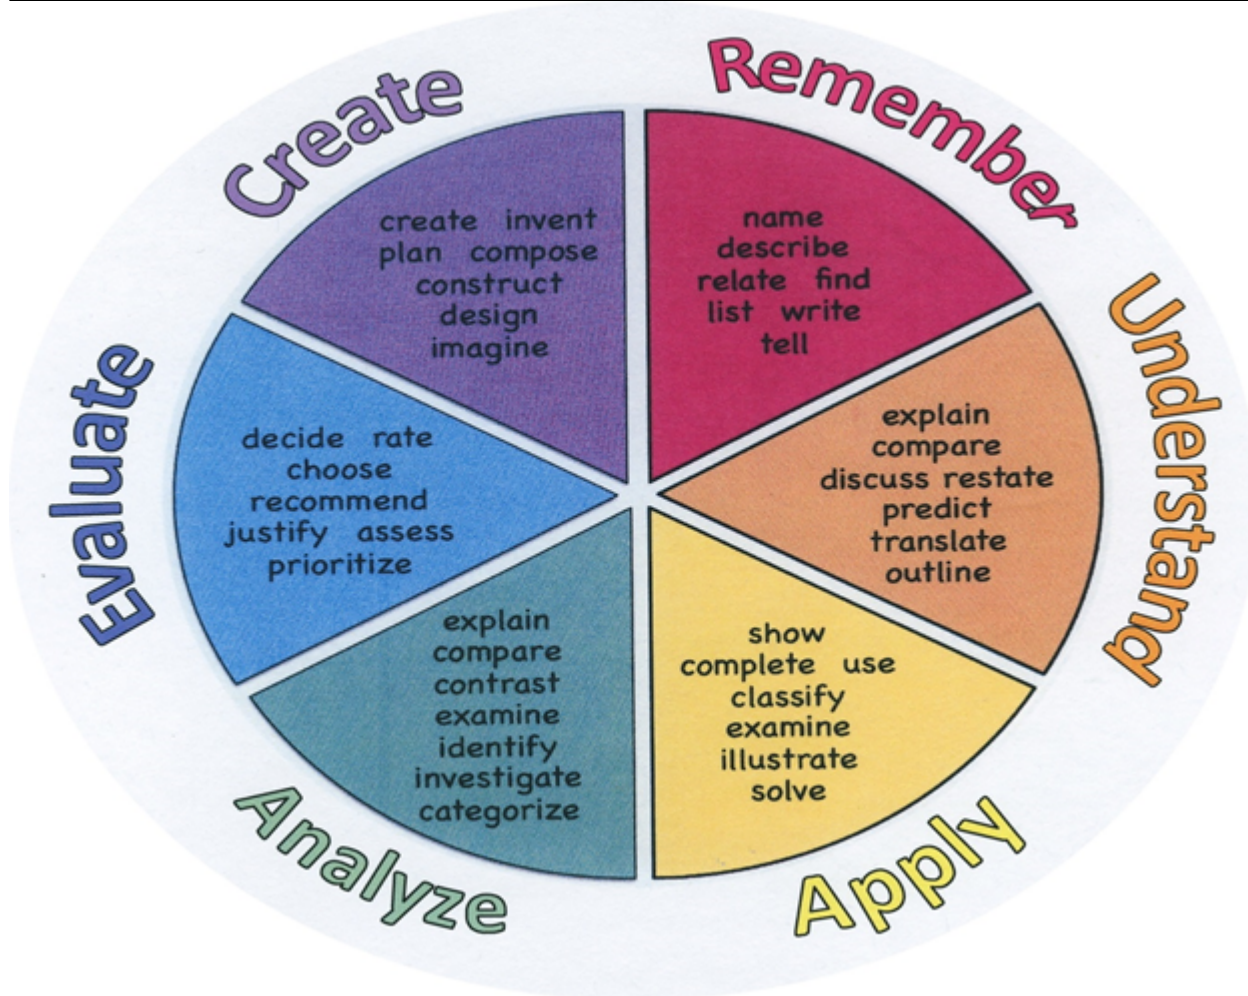

Write down the correct number when given or spoken by the teacher.

Draw the hands of the clock based on the written description or spoken time by the teacher.

Action Verbs: Below are examples of action verbs associated with each level of the Revised Bloom's Taxonomy.

Remember	Understand	Apply	Analyze	Evaluate	Create
Choose	Classify	Choose	Categorize	Appraise	Combine

Suggested Activities & Best Practices

Conduct chorals of numbers by fives for time practice.

Announce the time an assignment is due using the target language.

Assessment Evidence - Checking for Understanding (CFU)

Have students create a timeline of their daily activities using the target language.

Ask students one by one what time it is in 5 minute intervals.

- Admit Tickets
- Anticipation Guide
- Common Benchmarks
- Compare & Contrast
- Create a Multimedia Poster
- DBQ's

- Written Reports

Primary Resources & Materials

Spanish is Fun workbooks, Teach Them Spanish workbooks, Teacher made worksheets

Ancillary Resources

SmartBoard, Clocks, Flash cards

Technology Infusion

Chromebooks are used for creating a daily schedule of activities.

SmartBoard is used for demonstration of symmetry of analog clock.

Alignment to 21st Century Skills & Technology

Mastery and infusion of **21st Century Skills & Technology** and their Alignment to the core content areas is essential to student learning. The core content areas include:

- English Language Arts;
- Mathematics;
- Science and Scientific Inquiry (Next Generation);
- Social Studies, including American History, World History, Geography, Government and Civics, and Economics;
- World languages;
- Technology;
- Visual and Performing Arts.

CRP.K-12.CRP1	Act as a responsible and contributing citizen and employee.
CRP.K-12.CRP1.1	Career-ready individuals understand the obligations and responsibilities of being a member of a community, and they demonstrate this understanding every day through their interactions with others. They are conscientious of the impacts of their decisions on others and the environment around them. They think about the near-term and long-term consequences of their actions and seek to act in ways that contribute to the betterment of their teams, families, community and workplace. They are reliable and consistent in going beyond the minimum expectation and in participating in activities that serve the greater good.
CAEP.9.2.4.A.1	Identify reasons why people work, different types of work, and how work can help a person achieve personal and professional goals.
CAEP.9.2.4.A.2	Identify various life roles and civic and work - related activities in the school, home, and community.
TECH.8.1.5.A.CS1	Understand and use technology systems

21st Century Skills/Interdisciplinary Themes

- Communication and Collaboration
- Creativity and Innovation
- Critical thinking and Problem Solving
- ICT (Information, Communications and Technology) Literacy
- Information Literacy
- Life and Career Skills
- Media Literacy

21st Century Skills

- Civic Literacy
- Environmental Literacy
- Financial, Economic, Business and Entrepreneurial Literacy
- Global Awareness
- Health Literacy

Differentiation

Allow students to utilize their own analog clock to practice the time in the target language.

Allow students to work in pairs for peer instruction while completing time identification on paper.

Differentiations:

- Small group instruction
- Small group assignments
- Extra time to complete assignments
- Pairing oral instruction with visuals
- Repeat directions
- Use manipulatives
- Center-based instruction
- Token economy
- Study guides
- Teacher reads assessments allowed
- Scheduled breaks
- Rephrase written directions
- Multisensory approaches
- Additional time
- Preview vocabulary
- Preview content & concepts
- Story guides
- Behavior management plan
- Highlight text
- Student(s) work with assigned partner
- Visual presentation
- Assistive technology
- Auditory presentations
- Large print edition
- Dictation to scribe
- Small group setting

Hi-Prep Differentiations:

- Alternative formative and summative assessments
- Choice boards
- Games and tournaments
- Group investigations

- Guided Reading
- Independent research and projects
- Interest groups
- Learning contracts
- Leveled rubrics
- Literature circles
- Multiple intelligence options
- Multiple texts
- Personal agendas
- Project-based learning
- Problem-based learning
- Stations/centers
- Think-Tac-Toes
- Tiered activities/assignments
- Tiered products
- Varying organizers for instructions

Lo-Prep Differentiations

- Choice of books or activities
- Cubing activities
- Exploration by interest
- Flexible grouping
- Goal setting with students
- Jigsaw
- Mini workshops to re-teach or extend skills
- Open-ended activities
- Think-Pair-Share
- Reading buddies
- Varied journal prompts
- Varied supplemental materials

Special Education Learning (IEP's & 504's)

Review the functions of the hands of the clock for deeper understanding of the analog clock.

Allow for comprehension rather than perfect accuracy when reviewing the time in class chorals of time.

- printed copy of board work/notes provided
- additional time for skill mastery
- assistive technology
- behavior management plan
- Center-Based Instruction

- check work frequently for understanding
- computer or electronic device utilizes
- extended time on tests/ quizzes
- have student repeat directions to check for understanding
- highlighted text visual presentation
- modified assignment format
- modified test content
- modified test format
- modified test length
- multi-sensory presentation
- multiple test sessions
- preferential seating
- preview of content, concepts, and vocabulary
- Provide modifications as dictated in the student's IEP/504 plan
- reduced/shortened reading assignments
- Reduced/shortened written assignments
- secure attention before giving instruction/directions
- shortened assignments
- student working with an assigned partner
- teacher initiated weekly assignment sheet
- Use open book, study guides, test prototypes

English Language Learning (ELL)

Students demonstrate the use of the military time prevalent in their country.

Time is illustrated with the different periods of the day, like morning, noon and night.

- teaching key aspects of a topic. Eliminate nonessential information
- using videos, illustrations, pictures, and drawings to explain or clarify
- allowing products (projects, timelines, demonstrations, models, drawings, dioramas, poster boards, charts, graphs, slide shows, videos, etc.) to demonstrate student's learning;
- allowing students to correct errors (looking for understanding)
- allowing the use of note cards or open-book during testing
- decreasing the amount of work presented or required
- having peers take notes or providing a copy of the teacher's notes
- modifying tests to reflect selected objectives
- providing study guides
- reducing or omitting lengthy outside reading assignments

- reducing the number of answer choices on a multiple choice test
- tutoring by peers
- using computer word processing spell check and grammar check features
- using true/false, matching, or fill in the blank tests in lieu of essay tests

At Risk

Have students move the hands of the clock as teacher announces the time.

Have students use their own hands as hands of the clock as teacher announces the time.

- allowing students to correct errors (looking for understanding)
- teaching key aspects of a topic. Eliminate nonessential information
- allowing products (projects, timelines, demonstrations, models, drawings, dioramas, poster boards, charts, graphs, slide shows, videos, etc.) to demonstrate student's learning
- allowing students to select from given choices
- allowing the use of note cards or open-book during testing
- collaborating (general education teacher and specialist) to modify vocabulary, omit or modify items to reflect objectives for the student, eliminate sections of the test, and determine how the grade will be determined prior to giving the test.
- decreasing the amount of work presented or required
- having peers take notes or providing a copy of the teacher's notes
- marking students' correct and acceptable work, not the mistakes
- modifying tests to reflect selected objectives
- providing study guides
- reducing or omitting lengthy outside reading assignments
- reducing the number of answer choices on a multiple choice test
- tutoring by peers
- using authentic assessments with real-life problem-solving
- using true/false, matching, or fill in the blank tests in lieu of essay tests
- using videos, illustrations, pictures, and drawings to explain or clarify

Talented and Gifted Learning (T&G)

Have students research the time in various cities of the world to present to the class.

Create a wordsearch with vocabulary referring to time.

- Above grade level placement option for qualified students
- Advanced problem-solving
- Allow students to work at a faster pace
- Cluster grouping

- Complete activities aligned with above grade level text using Benchmark results
- Create a blog or social media page about their unit
- Create a plan to solve an issue presented in the class or in a text
- Debate issues with research to support arguments
- Flexible skill grouping within a class or across grade level for rigor
- Higher order, critical & creative thinking skills, and discovery
- Multi-disciplinary unit and/or project
- Teacher-selected instructional strategies that are focused to provide challenge, engagement, and growth opportunities
- Utilize exploratory connections to higher-grade concepts
- Utilize project-based learning for greater depth of knowledge
