### **Unit Overview**

---

Unit 5 extends the language foundation students built in units 2 and 4. Students will use their acquired fluency with numbers to enable them to tell time in the target language. Students will practice daily routine phrases by learning to ask and answer questions regarding what time they perform them. The unit's essential questions will encourage students to see how they are connected to children from around the world through the shared experience of time and schedules of daily routines.

The 4th Grade World Language course, *We Are All Connected*, is designed to help students acquire language skills that will enable them to eventually function at ACTFL's Novice Mid Level. They will communicate, in the target language, using simple, memorized words and phrases to talk about familiar topics related to their names, families, daily routines, likes and preferences, numbers, time and adjectives. The course complements work that the students will do across other contents with particular connections to Language Arts, Math and Social Studies. Our course borrows its title from the first unit of the Language Arts curriculum. The essential questions and enduring understandings that frame each unit will help students explore the things that connect their culture to cultures from around the world. In all of the World Language units, students will be introduced to boys and girls from around the world. Students will use stories, maps, pictures, and technology to discover elements of world culture and compare them to the culture in which they live.

## **Enduring Understanding**

---

- When children eat, sleep, play and study in different countries can vary.
- Some people in other countries tell the time using a 24-hour system.
- People in different cultures distribute activities during the day in different ways
- Climate and geography affect the way we use our time.

## **Essential Questions**

---

- Do children from other countries eat, sleep, play and study at the same times I do?
- Why do people from other countries sometimes report time as 14:30?
- How can I use the target language to exchange information about the time and my schedule of daily routines?
- How can I arrange meeting times in the target language?

## **Alignment to 21st Century Skills & Technology**

### **Key SUBJECTS AND 21st CENTURY THEMES**

Mastery of key subjects and 21st century themes is essential for all students in the 21st century.

Key subjects include:

- English, reading or language arts
- World languages
- Arts
- Mathematics
- Economics
- Science
- Geography
- History
- Government and Civics

## **21st Century/Interdisciplinary Themes**

---

- Civic Literacy
- Environmental Literacy
- Financial, Economic, Business and Entrepreneurial Literacy
- Global Awareness
- Health Literacy

## **21st Century Skills**

---

- Communication and Collaboration
- Creativity and Innovation
- Critical thinking and Problem Solving
- ICT (Information, Communications and Technology) Literacy
- Information Literacy
- Life and Career Skills
- Media Literacy

## **Technology Infusion**

---

Students will participate in various activities that will support the technology standards listed above. Activities include manipulation of SmartBOARD, collaboration in internet searches, aid teacher in the use of power point, and use video projection to present their work.

## **Differentiation**

---

- TPR (Total Physical Response) and TPRS (Storytelling)
- Keep the use of English to a minimum, with most instructions, directions and explanations given in the target language.
- Use real objects, gestures, pictures, and other visuals to convey meaning.
- Focus on language that is concerned with functional situations and authentic utterances.
- Do not always insist on complete sentences, but mirror natural speech patterns.
- Adopt a conversational approach replicating “real” situations likely to occur.
- Teach vocabulary in context, including all kinds of idiomatic phrases.
- Use paired activities and small-group learning (cooperative learning groups).
- Use technology (including SmartBoards, multimedia presentations, turning point, video projection to share student work...etc).
- Use a variety of print and non-print materials.
- Strive to develop cultural awareness using authentic cultural realia as a springboard for communication

in the language.

- Emphasize acceptable communication, rather than near-native pronunciation.
- Ensure a match between the learner and the language in terms of relevance and learning styles.
- Use games and activities that involve movement to aid in the teaching kinesthetic learning.
- Activation of prior knowledge through teacher led discussions.

## **Special Education**

---

- printed copy of board work/notes provided
- additional time for skill mastery
- assistive technology
- behavior management plan
- Center-Based Instruction
- check work frequently for understanding
- computer or electronic device utilizes
- extended time on tests/ quizzes
- have student repeat directions to check for understanding
- highlighted text visual presentation
- modified assignment format
- modified test content
- modified test format
- modified test length
- multiple test sessions
- multi-sensory presentation
- preferential seating
- preview of content, concepts, and vocabulary
- reduced/shortened reading assignments
- Reduced/shortened written assignments
- secure attention before giving instruction/directions
- shortened assignments
- student working with an assigned partner
- teacher initiated weekly assignment sheet
- Use open book, study guides, test prototypes

## **ELL**

---

- teaching key aspects of a topic. Eliminate nonessential information
- using videos, illustrations, pictures, and drawings to explain or clarify
- allowing products (projects, timelines, demonstrations, models, drawings, dioramas, poster boards, charts, graphs, slide shows, videos, etc.) to demonstrate student's learning;
- allowing students to correct errors (looking for understanding)
- allowing the use of note cards or open-book during testing
- decreasing the amount of work presented or required
- having peers take notes or providing a copy of the teacher's notes
- modifying tests to reflect selected objectives
- providing study guides
- reducing or omitting lengthy outside reading assignments
- reducing the number of answer choices on a multiple choice test
- tutoring by peers
- using computer word processing spell check and grammar check features
- using true/false, matching, or fill in the blank tests in lieu of essay tests

## **Intervention Strategies**

---

- allowing students to correct errors (looking for understanding)
- teaching key aspects of a topic. Eliminate nonessential information
- allowing products (projects, timelines, demonstrations, models, drawings, dioramas, poster boards, charts, graphs, slide shows, videos, etc.) to demonstrate student's learning
- allowing students to select from given choices
- allowing the use of note cards or open-book during testing
- collaborating (general education teacher and specialist) to modify vocabulary, omit or modify items to reflect objectives for the student, eliminate sections of the test, and determine how the grade will be determined prior to giving the test.
- decreasing the amount of work presented or required
- having peers take notes or providing a copy of the teacher's notes
- marking students' correct and acceptable work, not the mistakes
- modifying tests to reflect selected objectives
- providing study guides
- reducing or omitting lengthy outside reading assignments
- reducing the number of answer choices on a multiple choice test
- tutoring by peers
- using authentic assessments with real-life problem-solving
- using true/false, matching, or fill in the blank tests in lieu of essay tests
- using videos, illustrations, pictures, and drawings to explain or clarify
