Board Approved: September 23, 2019

## **Unit Overview**

---

Within this unit, students will read about concepts such as sharing stories, discoveries, taking action, considering our resources, and expressing themselves. This unit will focus on how making positive change comes from within.

## **Enduring Understandings**

---

Students will understand that...

- some stories are written, some are told aloud, and others are performed. Whether stories teach lessons or entertain us with humor, exaggeration, or heroic adventure, they always help to show us who we are.
- often, we need to look at something a second time to see the whole picture.
- throughout history, outspoken citizens have challenged laws and practices they believe to be wrong and unfair. Many social movements have brought about positive change.
- natural resources are a necessity for us, but many are limited. As people use natural resources, they must remember to conserve and protect them too.
- writing, acting, painting, dancing, playing music - these are ways to express things that are meaningful to you.
- things that you care deeply and passionately about are things that are important to you.

## **Essential Questions**

---

- What kinds of stories do we tell? Why do we tell them?
- What can you discover when you give things a second look?
- What can people do to bring about a positive change?
- Why are natural resources valuable?
- How do you express that something is important to you?
- How do we decide what's important?

## Exit Skills

---

By the end of Unit 4: It's Up to You, students should be able to...

- summarize a text.
- ask and answer questions about a text.
- compare and contrast text structure.
- determine the theme of a text and support with text evidence.
