Belleville Board of Education

102 Passaic Avenue

Belleville, NJ 07109

Prepared by: Sophia Piano

Dr. Richard D. Tomko, Superintendent of Schools

Dr. Giovanni Cusmano, Director of Curriculum and Instruction Mathematics and Science K -8

Mr. George Droste, Director of Curriculum and Instruction Mathematics and Science 9 - 12

Board Approved: October 17, 2016

Unit Overview

In Unit One, ELLs will examine how an idea comes from a need and where it can lead. Topics covered in Unit One include meeting a need, trial and error, seeing yourself, inventions, and new technology.

"Wonders for English Learners offers instruction specifically designed to create learning experiences that inspire confidence, increase student engagement, and build language skills. Lessons emphasize building speaking, listening, reading, and writing skills to improve both academic and social language and accelerate progress in the core classroom. All instruction connects with core Wonders content, providing a seamless pathway for students to access content at their proficiency level, build understanding, and engage in the core classroom."

Exit Skills

By the end of this unit, ELLs will be able to:

- Develop oral vocabulary to use when talking about a topic.
- Ask and answer questions after actively listening to a read-aloud
- Ask and answer questions about key details in a text
- Read with sufficient accuracy and fluency to support comprehension
- Demonstrate comprehension of text through written response to a prompt
- Elaborate and ask questions to request clarification
- Support ideas with text evidence
- Determine the main idea and supporting details

- Apply grade level phonics skills

Enduring Understanding

ELLs will understand more can be accomplished if people cooperate and work together to get a job done. An idea can begin anywhere by anyone who has a need for something.

Essential Questions

- How do we get the things we need?
- What can lead us to rethink an idea?
- How can experiencing nature change the way you think about it?
- How does technology lead to creative ideas?
- What are the positive and negative effects of new technology?

Interdisciplinary Connections

| | |
|------------------|---|
| SOC.6.1.4.D.CS2 | Key historical events, documents, and individuals led to the development of our nation. |
| SOC.6.1.4.D.13 | Describe how culture is expressed through and influenced by the behavior of people. |
| SCI.3-4.5.3.4 | All students will understand that life science principles are powerful conceptual tools for making sense of the complexity, diversity, and interconnectedness of life on Earth. Order in natural systems arises in accordance with rules that govern the physical world, and the order of natural systems can be modeled and predicted through the use of mathematics. |
| SOC.6.1.4.D.CS10 | The cultures with which an individual or group identifies change and evolve in response to interactions with other groups and/or in response to needs or concerns. |
| SOC.6.1.4 | All students will acquire the knowledge and skills to think analytically about how past and present interactions of people, cultures, and the environment shape the American heritage. Such knowledge and skills enable students to make informed decisions that reflect fundamental rights and core democratic values as productive citizens in local, national, and global communities. |
