## **Unit Overview**

---

The language instructor will provide extended time for the completion of this unit, which includes an extensive review of content learned in past years of the target language study. Students will also perform a summative reading comprehension task. The unit ends with a summative performance assessment. The unit's essential questions will guide students through a process of personally evaluating their journey of language learning through the present time. The instructor will also guide 5th graders in setting goals for language acquisition for the future both inside and outside the classroom.

5th graders finish their elementary world language studies with an emphasis on reading and speaking comprehension. Each unit will provide opportunities for students to read closely to determine what the text says explicitly and to make logical inferences from it. These opportunities complement objectives in the Language Arts curriculum. Students will exit the program having acquired sentences, words and phrases that allow them to communicate at the Novice Mid or High Level. According to the American Council on the Teaching of Foreign Languages, target language "speakers at this level are able to manage successfully a number of uncomplicated communicative tasks in straightforward social situations. Conversation is concentrated on topics necessary for basic expression in the target language culture, such as basic personal information, basic objects, and a limited number of activities, preferences, and immediate needs. Novice High speakers respond to simple, direct questions or requests for information. They are also able to ask a few formulaic questions."
