### **Unit Overview**

In unit 3, students will extend their ability to communicate with others through the acquisition of sentences, phrases and words having to do with preferences regarding sports and activities. Cooperative learning and reinforcement activities will provide students with opportunities for language discovery and acquisition through interpersonal dialogue. Students will continue to practice reading comprehension strategies throughout the unit.

5th graders finish their elementary world language studies with an emphasis on reading and speaking comprehension. Each unit will provide opportunities for students to read closely to determine what the text says explicitly and to make logical inferences from it. These opportunities complement objectives in the Language Arts curriculum. Students will exit the program having acquired sentences, words and phrases that allow them to communicate at the Novice Mid or High Level. According to the American Council on the Teaching of Foreign Languages, target language "speakers at this level are able to manage successfully a number of uncomplicated communicative tasks in straightforward social situations. Conversation is concentrated to on topics necessary for basic expression in the target language culture, such as basic personal information, basic objects, and a limited number of activities, preferences, and immediate needs. Novice High speakers respond to simple, direct questions or requests for information. They are also able to ask a few formulaic questions."
