## **Unit Overview**

---

- The elements of Melody and Harmony are based on the function and use of scales; which notes to use, which not to use, how we construct musical context around our ideas. Studying scales applies not only theory knowledge, but practical knowledge when the students take it into their own performance. Exploring different keys allows student performers and arrangers to be more versatile when it comes to applying their practice to the real world. Knowledge of all the keys and scales is also the intermediate doorway to effective improvisation.

## **Enduring Understandings**

---

- Identifying and constructing Major diatonic scales
- Identifying and constructing Natural Minor Scales
- Identifying and constructing Harmonic Minor Scales
- Identifying and constructing Melodic Minor Scales

## Essential Questions

---

- What are the functions of the different types of scales?
- What are the differences between Natural, Harmonic, and Melodic Minor?
- What is the relationship between the Major and Minor Circle of Fifths?

## Exit Skills

---

- - Identify and construct Major diatonic scales
  - Identify and construct Natural Minor Scales
  - Identify and construct Harmonic Minor Scales
  - Identify and construct Melodic Minor Scales
