# Appendix of Technology Standards and Infusion Exemplars

Grade K-2

**Belleville Board of Education** 

**102 Passaic Avenue** 

Belleville, NJ 07109

Prepared by: Ms. Karen L. Franciosa

Dr. Richard Tomko, Ph.D., M.J., Superintendent of Schools

Ms. LucyAnn Demikoff, Director of Curriculum and Instruction K-12

Ms. Nicole Shanklin, Director of Elementary Education

Mr. George Droste, Director of Secondary Education

Board Approved: September 23, 2019

## **Appendix of Technology Standards and Exemplars**

The purpose of this appendix is to serve as a guide for educators to meet the technological requirements as per the NJDOE website:

New Jersey's Technology Standards consist of 8.1 Educational Technology and 8.2 Technology, Engineering, Design and Computational Thinking, which work symbiotically to provide students with the necessary skills for college and career readiness.

"Advances in technology have drastically changed the way we interact with the world and each other. The digital age requires that we understand and are able to harness the power of technology to live and learn". - International Society for Technology in Education

In this ever-changing digital world where citizenship is being re-imagined, our students must be able to harness the power of technology to live, solve problems and learn in college, on the job and throughout their lives. Enabled with digital and civic citizenship skills, students are empowered to be responsible members of today's diverse global society.

Readiness in this century demands that students actively engage in critical thinking, communication, collaboration, and creativity. Technology empowers students with real-world data, tools, experts and global outreach to actively engage in solving meaningful problems in all areas of their lives. The power of

technology discretely supports all curricular areas and multiple levels of mastery for all students.

### **Technology Infusion Exemplars by Discipline for Grades K-2**

Upon completion of this sections, please remove all remaining descriptions, notes, outlines, examples and/or illustrations that are not needed or used.

Strand	B. Technology and	Society: Kno	owledge and understanding of human, cultural and societal values and products in the global society.
Grade	Content Statement	Indicator	Indicator

Level bands	Students will be able to understand:		
K-2	The cultural, social, economic and political effects of technology.	8.2.2.B.1	Identify how technology impacts or improves life.
	The effects of technology on the environment.	8.2.2.B.2	Demonstrate how reusing a product affects the local and global
	The role of society in the development and use of technology.	8.2.2.B.3	Identify products or systems that are designed to meet human n
	The influence of technology on history.	8.2.2.B.4	Identify how the ways people live and work has changed becau
3-5	The cultural, social, economic and political effects of technology.	8.2.5.B.1	Examine ethical considerations in the development and product through its life cycle.
	The effects of technology on the environment.	8.2.5.B.2	Examine systems used for recycling and recommend simplifical share with product developers.
		8.2.5.B.3	Investigate ways that various technologies are being developed improper use of resources.
	The role of society in the development and use of technology.	8.2.5.B.4	Research technologies that have changed due to society's change
		8.2.5.B.5	Explain the purpose of intellectual property law.
	The influence of technology on history.	8.2.5.B.6	Compare and discuss how technologies have influenced history
6-8	The cultural, social, economic and political effects of technology.	8.2.8.B.1	Evaluate the history and impact of sustainability on the develop product or system over time and present results to peers.
		8.2.8.B.2	Identify the desired and undesired consequences from the use o
	The effects of technology on the environment.	8.2.8.B.3	Research and analyze the ethical issues of a product or system of report findings for review by peers and /or experts.
		8.2.8.B.4	Research examples of how humans can devise technologies to reconsequences of other technologies and present your findings.
	The role of society in the development and use of	8.2.8.B.5	Identify new technologies resulting from the demands, values, a individuals, businesses, industries and societies.
	technology.	8.2.8.B.6	Compare and contrast the different types of intellectual property patents and trademarks.
	The influence of technology on history.	8.2.8.B.7	Analyze the historical impact of waste and demonstrate how a preused or remanufactured into a new product.
9-12	The cultural, social, economic and political effects of technology.	8.2.12.B.1	Research and analyze the impact of the design constraints (spec for a product or technology driven by a cultural, social, econom publish for review.
	The effects of technology on the environment.	8.2.12.B.2	Evaluate ethical considerations regarding the sustainability resources that are used for the design, creation and mainter product.
	The role of society in the development and use of technology.	8.2.12.B.3	Analyze ethical and unethical practices around intellectual propinfluenced by human wants and/or needs.

	The influence of technology on history.	8.2.12.B.4	Investigate a technology used in a given period of history, e.g., revolution or information age, and identify their impact and how changed to meet human needs and wants.
		8.2.12.B.5	Research the historical tensions between environmental and ecc as driven by human needs and wants in the development of a ten and present the competing viewpoints to peers for review.
