

3-5 CHPE Unit - Wellness & Safety

Content Area: **Physical Education & Health**
Course(s):
Time Period: **Marking Period 1**
Length: **9 Weeks**
Status: **Published**

Unit Overview

This unit is intended to explore the following core ideas:

- Health is influenced by the interaction of body systems.
- Self-management skills impact an individual's ability to recognize, cope, and express emotions about difficult events.
- Resiliency and coping practices influence an individual's ability to respond positively to everyday challenges and difficult situations.
- Community professionals and school personnel are available to assist and address health emergencies as well as provide reliable information.
- Individuals will benefit from an awareness of coping strategies that can be used when facing difficult situations.
- Understanding the principals of a balanced nutritional plan (e.g. moderation, variety of fruits, vegetables, limiting processed foods) assists in making nutrition-related decisions that will contribute to wellness.
- Safety includes being aware of the environment and understanding how certain situations could lead to injury or illness.
- There are strategies that individuals can use to communicate safely in an online environment.
- Children who practice setting healthy boundaries know how to say no and what to do when they feel uncomfortable or find themselves in unsafe situations.
- There are actions that individuals can take to help prevent diseases and stay healthy.
- The use of alcohol, tobacco, and drugs may affect the user, family, and community members in negative ways and have unintended consequences.
- Drug misuse and abuse can affect one's relationship with friends, family, and community members in unhealthy ways.
- The short- and long-term effects of substance abuse are dangerous and harmful to one's health.
- The use/abuse of alcohol, tobacco, and drugs can have unintended consequences but there are resources available for individuals and others affected by these situations.
