5 Math Unit 11: Convert Measurement

Content Area: **Mathematics**
Course(s):
Time Period: **March**
Length: **3 weeks**
Status: **Published**

Unit Overview

Convert like measurement units within a given measurement system; in Grade 5, students extend their abilities from Grade 4 to express
measurements in larger or smaller units within a measurement system. This is an excellent opportunity to reinforce notions of place value for whole
numbers and decimals, and connection between fractions and decimals

What are customary measurement units and how are they related? Wht are metric measurement units and how are they related?

Goal
To converty measurement units within a given system.

Students will be able to...
convert measurement units within a system.

Standards

MA.5.NBT.B.5	Fluently multiply multi-digit whole numbers using the standard algorithm.
MA.5.NBT.B.6	Find whole-number quotients of whole numbers with up to four-digit dividends and two-digit divisors, using strategies based on place value, the properties of operations, and/or the relationship between multiplication and division. Illustrate and explain the calculation by using equations, rectangular arrays, and/or area models.
MA.5.MD.A.1	Convert among different-sized standard measurement units within a given measurement system (e.g., convert 5 cm to 0.05 m), and use these conversions in solving multi-step, real world problems.

Interdisciplinary Connections

Topic 1 Math and Science Project - Using different presentations tools, students will collect different types of paper. Talk about the uses of
paper. Tell how strong each type of paper is.Tell how the paper feels. Tell if the paper can soak up water.

ELA:
NJSLSA.R10. Read and comprehend complex literary and informational texts independently and proficiently with scaffolding as needed.

Science:
3-5-ETS1-2. Generate and compare multiple possible solutions to a problem based on how well each is likely to meet the criteria and constraints of the problem.

21st Century Life Literacies & Key Skills

Critical Thinking and Problem Solving:
