# 5 Math Unit 13: Write and Interpret Numerical Expressions

Content Area:	Mathematics
Course(s):	
Time Period:	April
Length:	1 week
Status:	Published

# **Unit Overview**

As preparation for the Expressions and Equations Progression in the middle grades, students in Grade 5 begin working more formally with

expressions. They write expressions to express a calculation, e.g., writing 2 x (8+7) to express the calculation "add 8 and 7, then multiply by 2." They

also evaluate and interpret expressions, e.g., using their conceptual understanding of multiplication to interpret  $3 \times (18932 + 921)$  as being three times

as large as 18932 + 921, without having to calculate the indicated sum or product. Thus, students in Grade 5 begin to think about numerical

expressions in ways that prefigure their later work with variable expressions (e.g., three times an unknown length is 3 x L). In Grade 5, this work

should be viewed as exploratory rather than for attaining mastery; for example, expressions should not contain nested grouping symbols, and they

should be no more complex than the expressions one finds in an application of the associative or distributive property,

How is the value of a numerical expression found?

# **Goal** To write and interpret numerical expressions

#### Students will be able to ...

write and interpret expressions in applications of the associative and distributive property

Standards	
MA.5.OA.A.1	Use parentheses, brackets, or braces in numerical expressions, and evaluate expressions with these symbols.
MA.5.OA.A.2	Write simple expressions that record calculations with numbers, and interpret numerical expressions without evaluating them.

## **Materials**

- EnVision Math
- 13-1 Order of Operations
- 13-2 Evaluate Expressions
- 13-3 Write Numerical Expressions
- 13-4 Interpret Numerical Expressions

- 13-5 Math Practices and Problem Solving: Reasoning
- ST Math
- <u>Happy Numbers</u>
- <u>3 Act Lessons</u>
- Building Fact Fluency Kit
- Brainingcamp Manipulatives
- <u>Nearpod Lessons</u>
- Brainpop Resources
- <u>Math Diagnosis and Intervention System</u>
- Online Resources

## Technology

- 8.1.5.A.1,2,4 (solve problems, word processing, databases, spreadsheets)
- 8.1.5.F.1 (digital tools to support scientific finding)
- 8.2.5.C.1,2,3 (solve problems, troubleshoot repair tools)

### Assessment

#### **Formative Assessment**

- Teacher Observation
- Daily Quick Check
- Quizzes
- Exit Tickets

#### **Summative Assessment**

- Topic Tests
- Benchmark Tests
- Alternative Assessments: Performance Tasks & Projects

# **Accommodations & Modifications**

### **Special Education**

- Follow IEP Plan which may contain some of the following examples...
- In class/pull out support with special ed teacher

- Additional time during intervention time
- Preferred seating
- Questions read aloud
- Extended time for completing tasks
- Graphic organizers
- Vocabulary support
- Mnemonic devices
- Songs/videos to reinforce concepts
- Limit number of questions
- Scribe
- Manipulatives
- Calculators
- Reteach pages
- Leveled homework
- Lesson intervention activities
- Math Diagnosis & Intervention System
- Another look homework video
- Practice buddy

#### 504

- In class/pull out support with special ed teacher Additional time during intervention time
- Preferred seating
- Questions read aloud
- Extended time for completing tasks Graphic organizers
- Vocabulary support Mnemonic devices
- Songs/videos to reinforce concepts Limit number of questions
- Scribe Manipulatives Calculators Reteach pages Leveled homework
- Lesson intervention activities
- Math Diagnosis & Intervention System Another look homework video
- Practice buddy

## ELL

- Translation device/dictionary
- In class/pull out support with ESL teacher
- Preferred seating
- Questions read aloud
- Extended time for completing tasks
- Graphic organizers
- Vocabulary support
- Mnemonic devices
- Songs/videos to reinforce concepts
- Manipulatives
- Math Diagnosis & Intervention System

## At-risk of Failure

- Additional time during intervention time
- Questions read aloud
- Graphic organizers
- Vocabulary support

- Mnemonic devices
- Songs/videos to reinforce concepts
- Manipulatives
- Calculators
- Reteach pages
- Leveled homework
- Lesson intervention activities
- Math Diagnosis & Intervention System
- Another look homework video
- Practice buddy

### **Gifted & Talented**

- Independent projects
- Enrichment pages
- Online games
- Leveled Homework
- Extension Activities
- Today's Challenge

# **Interdisciplinary Connections**

Topic 1 Math and Science Project - Using different presentations tools, students will collect different types of paper. Talk about the uses of

paper. Tell how strong each type of paper is. Tell how the paper feels. Tell if the paper can soak up water.

#### ELA:

NJSLSA.R10. Read and comprehend complex literary and informational texts independently and proficiently with scaffolding as needed.

#### Science:

3-5-ETS1-2. Generate and compare multiple possible solutions to a problem based on how well each is likely to meet the criteria and constraints of the problem.

# 21st Century Life Literacies & Key Skills

## Critical Thinking and Problem Solving:

Problem-solving activities starting with the lesson "Solve and Share" and ending with higher order thinking questions that utilize the mathematical practices

### **Communication and Collaboration:**

Throughout the lesson, students are provided with opportunities to discuss their ideas as they investigate mathematical concepts.

#### **Creativity:**

Students have opportunities to express their creativity by solving problems their own way, participating in performance tasks, and group projects.

## **Technology:**

Use of iPads, instructional apps, lab materials embedded in lessons. Programs such as BrainPop,Math Reflex, Google Slides are used to support instruction.

# **Career Ready Practices**

- CRP1. Act as a responsible and contributing citizen and employee.
- CRP2. Apply appropriate academic and technical skills.
- CRP4. Communicate clearly and effectively and with reason.
- CRP8. Utilize critical thinking to make sense of problems and persevere in solving them.
- CRP12. Work productively in teams while using cultural global competence.
