

Unit 3 Video Editing Project

Content Area: **Technology**
Course(s):
Time Period: **February**
Length: **5 Days**
Status: **Published**

Unit Overview

Students learn about various specialized aspects of video production. Topics include editing, special effects, computer graphics integration, greenscreen, and stop motion. Students will create original short films using these techniques, on topics that are integrated with classroom instruction. Films are published and shown at an end-of-unit "film festival" for the class.
