## Unit Overview

---

### Recognizing Number Patterns

The unit begins by reviewing counting by 1s. Number charts are used to allow students to explore each hundred set between 100 and 1,000. Then the students will identify patterns when skip counting by 5s, 10s, and 100s. These patterns are used to solve problems when counting on by 5s, 10s, or 100s. Finally, students explore the idea of even and odd numbers.

### What Students Are Learning

- Students describe and use patterns when counting by 1s and skip counting by 5s, 10s, and 100s within 1,000.
- Students determine whether a number is even or odd.
- Students write an equation to express an even number as a sum of two equal addends.
- Students use arrays to find the sum of equal addends.

## Standards

---

MATH.2.OA.C.3	Determine whether a group of objects (up to 20) has an odd or even number of members, e.g., by pairing objects or counting them by 2s; write an equation to express an even number as a sum of two equal addends.
MATH.2.OA.C.4	Use addition to find the total number of objects arranged in rectangular arrays with up to 5 rows and up to 5 columns; write an equation to express the total as a sum of equal addends.
MATH.2.NBT.A.2	Count within 1000; skip-count by 5s, 10s, and 100s.
