

5 Math Unit 11: Divide Fractions

Content Area: **Mathematics**
Course(s):
Time Period: **Marking Period 3**
Length: **11 Days**
Status: **Published**

Unit Overview

Divide Fractions

In this unit, students will build on their understanding of division and fractions to divide unit fractions by whole numbers and whole numbers divided by unit fractions. They explore situations involving equal sharing division and equal grouping division. Students use models to help determine quotients. Students make sense of division situations to write equations involving fractions. They will observe patterns and wrestle with the concept that the quotient may be bigger than the dividend. Models can help support student understanding of these concepts by finding the number of small pieces that fit into the whole. In order to check their work, students will use the relationship between multiplication and division.

What Students Are Learning

- Students interpret a fraction as dividing the numerator by the denominator
- Students divide unit fractions by whole numbers and whole numbers by unit fractions.
- Students solve real world problems involving division with unit fractions and whole numbers.

Number Routines

- Problem Strings
- Would you rather?
- Which one doesn't belong?
- What's another way to write it?
- Where does it go?
- Notice & Wonder
- About how much?
- Numberless Word Problem

Standards

MATH.5.NF.B.3	Interpret a fraction as division of the numerator by the denominator ($a/b = a \div b$). Solve word problems involving division of whole numbers leading to answers in the form of fractions or mixed numbers, e.g., by using visual fraction models or equations to represent the problem.
MATH.5.NF.B.7	Apply and extend previous understandings of division to divide unit fractions by whole numbers and whole numbers by unit fractions.
MATH.5.NF.B.7.a	Interpret division of a unit fraction by a non-zero whole number, and compute such quotients.

MATH.5.NF.B.7.b

Interpret division of a whole number by a unit fraction, and compute such quotients.

MATH.5.NF.B.7.c

Solve real world problems involving division of unit fractions by non-zero whole numbers and division of whole numbers by unit fractions, e.g., by using visual fraction models and equations to represent the problem.

Materials

Core Materials:

Reveal Math

11.1 Relate Fractions to Division

11.2 Solve Problems involving Division

11.3 Represent Division of Whole Numbers by Unit Fractions

11.4 Divide Whole Numbers by Unit Fractions

11.5 Represent Division of Unit Fractions by Non-Zero Whole Numbers

11.6 Divide Unit Fractions by Non-Zero Whole Numbers

11.7 Solve Problems Involving Fractions

Supplemental Materials:

- [ST Math](#)
- [Happy Numbers](#)
- [3 Act Lessons](#)
- [Building Fact Fluency Kit](#)
- [Brainingcamp Manipulatives](#)
- [Nearpod Lessons](#)
- [Brainpop Resources](#)
- [Online Resources](#)

Technology

CS.3-5.8.1.5.DA.1

Collect, organize, and display data in order to highlight relationships or support a claim.

CS.3-5.8.1.5.DA.3

Organize and present collected data visually to communicate insights gained from different views of the data.

CS.3-5.8.1.5.DA.4

Organize and present climate change data visually to highlight relationships or support a claim.

CS.3-5.8.2.5.ED.2

Collaborate with peers to collect information, brainstorm to solve a problem, and evaluate all possible solutions to provide the best results with supporting sketches or models.

CS.3-5.8.2.5.ED.3

Follow step by step directions to assemble a product or solve a problem, using appropriate

CS.3-5.DA

tools to accomplish the task.

Data & Analysis

Individuals can select, organize, and transform data into different visual representations and communicate insights gained from the data.

Data can be organized, displayed, and presented to highlight relationships.

Assessment

Formative Assessment

- Unit Readiness Diagnostics
- Lesson Checks
- Exit Tickets
- Teacher Observation

Summative Assessment

- Unit Assessment Performance Task
- Benchmark Tests
- Alternative Assessments: Performance Tasks & Projects

Accommodations & Modifications

Special Education

Differentiated Instruction			
Accommodate Based on Students Individual Needs: Strategies			
Time/General	Processing	Comprehension	Recall
<ul style="list-style-type: none">• Extra time for assigned tasks• Adjust length of assignment• Timeline with due dates for reports and projects• Communication system between home and school• Provide lecture notes/outline	<ul style="list-style-type: none">• Extra response time• Have students verbalize steps• Repeat, clarify, or reword directions• Mini-breaks between tasks• Provide a warning for transitions• Reading partners	<ul style="list-style-type: none">• Precise step-by-step directions• Short manageable tasks• Brief and concrete directions• Provide immediate feedback• Small group	<ul style="list-style-type: none">• Teacher-made checklist• Use visual graphic organizers• Reference resources to promote independence• Visual and verbal reminders

		instruction • Emphasize multi-sensory learning	• Graphic organizers
Assistive Technology <ul style="list-style-type: none"> • Computer/whiteboard • Tape recorder • Spell-checker • Audio-taped books 	Tests/Quizzes/Grading <ul style="list-style-type: none"> • Extended time • Study guides • Focused/chunked tests • Read directions aloud 	Behavior/Attention <ul style="list-style-type: none"> • Consistent daily structured routine • Simple and clear classroom rules • Frequent feedback 	Organization <ul style="list-style-type: none"> • Individual daily planner • Display a written agenda • Note-taking assistance • Color code materials

504

- In class/pull out support with special ed teacher Additional time during intervention time
- Preferred seating
- Questions read aloud
- Extended time for completing tasks Graphic organizers
- Vocabulary support Mnemonic devices
- Songs/videos to reinforce concepts Limit number of questions
- Scribe Manipulatives Calculators Reteach pages Leveled homework
- Lesson intervention activities
- Math Diagnosis & Intervention System Another look homework video
- Practice buddy

ELL

- Translation device/dictionary
- In class/pull out support with ESL teacher
- Preferred seating
- Questions read aloud
- Extended time for completing tasks
- Graphic organizers
- Vocabulary support
- Mnemonic devices
- Songs/videos to reinforce concepts
- Manipulatives
- Math Diagnosis & Intervention System

At-risk of Failure

- Additional time during intervention time
- Questions read aloud
- Graphic organizers
- Vocabulary support
- Mnemonic devices
- Songs/videos to reinforce concepts
- Manipulatives
- Calculators
- Reteach pages
- Leveled homework
- Lesson intervention activities
- Math Diagnosis & Intervention System
- Another look homework video
- Practice buddy

Gifted & Talented

- Independent projects
- Enrichment pages
- Online games
- Leveled Homework
- Extension Activities
- Today's Challenge

Interdisciplinary Connections

SCI.3-5-ETS1-1	Define a simple design problem reflecting a need or a want that includes specified criteria for success and constraints on materials, time, or cost.
ELA.RI.MF.5.6	Interpret information presented visually, orally, or quantitatively (e.g., in charts, graphs, diagrams, timelines, animations, or interactive elements on web pages) and explain how the information contributes to an understanding of the text in which it appears.
ELA.SL.PE.5.1	Engage effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grade 5 topics and texts, building on others' ideas and expressing their own clearly.

Career Readiness, Life Literacies & Key Skills

	People can choose to save money in many places such as home in a piggy bank, bank, or credit union.
PFL.9.1.5.FI.1	Identify various types of financial institutions and the services they offer including banks, credit unions, and credit card companies.
PFL.9.1.5.PB.1	Develop a personal budget and explain how it reflects spending, saving, and charitable contributions.
WRK.9.2.5.CAP.3	Identify qualifications needed to pursue traditional and non-traditional careers and occupations.

WRK.9.2.5.CAP.4	Explain the reasons why some jobs and careers require specific training, skills, and certification (e.g., life guards, child care, medicine, education) and examples of these requirements.
TECH.9.4.5.CT	Critical Thinking and Problem-solving
TECH.9.4.5.CT.1	Identify and gather relevant data that will aid in the problem-solving process (e.g., 2.1.5.EH.4, 4-ESS3-1, 6.3.5.CivicsPD.2).
TECH.9.4.5.CT.4	Apply critical thinking and problem-solving strategies to different types of problems such as personal, academic, community and global (e.g., 6.1.5.CivicsCM.3). The ability to solve problems effectively begins with gathering data, seeking resources, and applying critical thinking skills.

Career Ready Practices

STEM CAREER: Robotics Engineer Student discusses his aspirations to be a robotics engineer. Student divides fractions. Students watch to see how Antonio uses division of a whole number by a unit fraction to determine how long a robot's battery will last.

- CRP1. Act as a responsible and contributing citizen and employee.
- CRP2. Apply appropriate academic and technical skills.
- CRP4. Communicate clearly and effectively and with reason.
- CRP8. Utilize critical thinking to make sense of problems and persevere in solving them.
- CRP12. Work productively in teams while using cultural global competence.
