

Unit 06: The History of Photography

Content Area: **English Language Arts**
Course(s):
Time Period: **Marking Period 1**
Length: **3-4 Weeks**
Status: **Published**

Brief Summary of Unit

Students will be introduced to the history of photography and the significant people who have contributed to the new art form. Also contemporary photographers and current trends in the medium will be explored. They will be able to identify specific factors that have influenced photographers' works. Students will select a photographer, photographic style or movement to research in depth. Their findings will be presented as a research paper and oral presentation utilizing the technology in the classroom.

Transfer

- • Relate themes of historic significance to today.
- • See patterns in image making.
- • See the effects of historical artists on today's photographic images.

Essential Questions

- • How does understanding formal elements of composition help when making a comparative analysis of photographic styles?
- • What are the key terms related to the history of photography?
- • What factors influence the work of photographers?
- • What factors influence/ed the development of the photographic medium?
- • What photographic techniques, styles and artists are significant to the history of photography?
- • Why is studying the history of photography valuable to the contemporary photographer?

Essential Understandings

- • Knowledge of the formal elements of design contribute to a successful comparative analysis.
- • The future of photography as an art form is based on knowledge of its past and present.
