Brief Summary of Unit

The students will continue to explore the craft area of clay. Discussion of the historical significance of the craft in addition to the studying contemporary ceramic artists will be used as inspiration for individual project ideas. Students will develop necessary skills and vocabulary required to create a clay teapot.

Transfer

Essential Questions

- • How can unique forms in clay be created using hand-building techniques.
- • How does the understanding of the clay process develop ones individual sense of aesthetics?
- • What considerations does the artist take into account when making a functional form?
- • What significance does the art of ceramics play in the history of varying cultures?

Essential Understandings

- • clay objects have been used in numerous cultures for the purpose of utility, decoration, religious and artistic expression.
- • individualized results will occur despite the parameters of the specialized properties of clay.
- • technical skill is required in the manipulation of clay to achieve desired results.
- • works of clay can be pure art forms or utilitarian. They can also be both.

Students Will Know

- • how to make a functioning teapot.
- • key terms associated with the selected processes, techniques, and media: e.g. calipers, stamping, ribbon tool, serrated rib, etc.
- • sequence of the steps to making and glazing a teapot
- • that knowledge of clay can be useful in many career choices within the art and engineering fields.
- • the various tools and techniques needed to create a proper lid.

Students Will Be Skilled At

Evidence/Performance Tasks

- • answer the essential questions.
- • complete brainstorming and thumbnail sketches for viable teapot design.
- • complete the rubrics for the individual projects.
- • correctly and consistently utilize the specific vocabulary associated with clay processes and techniques.
- • create a teapot using one of the clay hand building methods demonstrated in class.
- • create a teapot with surface design.
- • meaningfully participate in group critiques based on elements and principles of design.
- • take process test.
- • writing prompt related to the art of Clay. Example: Good design has impact upon our lives in many ways. Design influences us when we buy such things as cars, houses clothing, teapots etc.. Reflect on this statement and comment how design has affected some of your purchases?

Learning Plan

- • Begin hand building process, working to completion of the clay design.
- • Brainstorm ideas and create thumbnail sketches for clay piece.
- • Cooperative learning groups examine sample teapot projects to determine the criteria for a successful design.
- • Critique of thumbnail sketches to select strongest design that best suits the medium.
- • Demonstration of hand building techniques. Students will create teapots.
- • Glazing of bisque pieces.
- • Group critique of finished artworks.
- • Individualized critique throughout the hand building process.
- • Large and small group demonstration of basic hand building techniques. Visual aids of finished sample pieces to be included in demonstration.
- • Lecture and discussion of contemporary clay artists and student work.
- • Presentation of clay properties and historical significance.

- • Presentation of kiln loading, firing and safety.
- • Preview the essential questions and connect to learning throughout the unit.
- • Process test and rubric
- • Students and teacher work to create assessment criteria.
- • Students complete writing prompt and rubric.
- • Viewing of DVD and YouTube video clips of clay hand building techniques.

Materials

Suggested Strategies for Modifications

- • additional time on task
- • alternative outcome options
- • assessment based on individual development in the area of study
- • audio tape of instruction
- • cooperative learning groups
- • handouts of notes, procedures, processes, diagrams, etc.
- • images and visual aids
- • one-to-one instruction and assistance
- • preferential seating
- • reading material modified to student level
- • reading material modified to student level
- • revised techniques, use of tools and media in hands-on activity
- • study partners
- • testing materials appropriate to student level
