### **Brief Summary**

Students will have the opportunity to develop their ability to translate the observed 3 dimensional environments into 2 dimensional drawings. Observational drawing on location will take place outside, weather permitting. Each student will have the opportunity to select several drawing sites, subjects and/or viewpoints of interest. Students will have the opportunity to reproduce a chosen photograph of a landscape creating the illusion of three dimensions on a two dimensional plane. Critiques will follow at end of sessions.

## **Essential Questions/Enduring Understandings**

#### **Essential Questions:**

- How can art students increase their ability to draw what is truly seen by drawing on location?
- How do the unique properties and aesthetics of various drawing media influence the artist's design?
- How does one grow artistically by drawing on location?
- How can students create the illusion of three dimensions on a two dimensional plane?
- How do students create the illusion of three dimensions using color?

#### Enduring Understandings:

- Observational drawing will improve their ability to draw what is seen and not what they think they see.
- Drawing is a developmental skill that improves with practice, commitment, and concentration.
- Using various drawing media will influence the artwork.
- The ability to draw is related to the ability to make sensitive and accurate observations.

# Students Will Know/ Students Will Be Skilled At

- what drawing on location involves
- how to set up for drawing on location
- the effects of the chosen medium
- techniques involved when using a specific medium

- the definition of Plien Air
- drawing on location
- drawing from a photograph
- understanding the difference between drawing from life and drawing from a photograph

#### **Learning Plan**

- Preview the essential questions and connect to learning throughout the unit.
- Learning will take place based on student interest and involvement.
- Students will be instructed to choose an area they would like to draw.
- They will be instructed to zoom in, focus on a detail or choose a particular viewpoint.
- Student will be issued tools (view finder, graphite, paper towels, rulers, etc.) in preparation of drawing.
- Students will be given the teacher chosen medium.
- Students will explore and record their chosen environment through observational drawing.
- Teacher will observe student progress with each session.
- Teacher will provide feedback, encouragement and guide corrections.
- Teacher will encourage students to use observational skills.
- Teacher will encourage students to explore the medium.

After drawings have been completed, students will meet in small groups to discuss and address the following: Problems they may have encountered in their work; How successful they were; Areas of improvement; Cropping work; Showcasing areas of interest using construction paper frame; Signing and dating work; Rubric completion.

- Display of work in classroom for all to view.
- Large group critique.
- Student/ teacher discussion.

formative and summative assessments.	Evidence of progression	in the course may be	demonstrated in divergent	ways through the
Artistic Process of Creating, Presenting	/ Producing, Connecting,	and Responding.		

Tasks will include:

- engagement in active and meaningful participation in classroom discussions and activities
- meaningful participation in individual and group critiques based on elements and principles of design
- self assessment via rubric
- answering the essential questions

#### **Materials**
