## **Essential Questions/Enduring Understandings**

---

- Intervals have two parts: the number and the quality.
- Intervals, or the spaces between notes, have names that are related to their aural quality.
- There are several methods in determining a given interval, including the use of whole steps and half steps, solfege or note names.
- What do I hear when I listen to music?

## **Students Will Know/Students Will Be Skilled At**

---

- How to construct intervals above each scale note and determine the quality using the key signature.
- How to identify perfect and major intervals aurally.
- How to recognize and identify the number and the quality of an interval in notation.
- How to use half steps and whole steps and/or the keyboard in identifying and constructing intervals.
- Which intervals are considered "perfect" and which are considered "major." (P1, M2, M3, P4, P5, M6, M7, P8)

## **Learning Plan**

---

- Preview the essential questions and return to them throughout the course, in discussion and written assignments.
- Students label the melodic intervals within a composed piece of music.

- Teacher and students practice singing the scale and the intervals contained in the scale with solfege syllables.
- Teacher and students will practice interval recognition and performance with worksheets, games, practice drills, flash cards, etc. Students will be asked to memorize each naturally occurring interval of the major scale.
- Teacher demonstrates the relationship between each note of a major scale to students. Teacher labels each interval from the key note with a number, quality, and solfege syllable.
- Teacher drills student aural recognition of intervals, playing them on the piano and asking students to write the interval number and quality. Students and teacher share common song melodies that begin with each interval to assist in recognition.

## **Evidence/Performance Tasks**

---

Performing Arts students demonstrate differentiated proficiency according to their ability to answer the essential questions through formative and summative assessments. Evidence of progression may be demonstrated in divergent ways through the Artistic Processes of Creating, Performing/ Presenting/ Producing, Connecting, and Responding.

- Students will build intervals above scale notes, with or without key signature.
- Students will construct perfect and major intervals from any given note.
- Students will recognize and label written intervals on the staff.
- Students will work towards aural recognition of all naturally occurring intervals of the major scale: P1, M2, M3, P4, P5, M6, M7, P8.
