Essential Questions/Enduring Understandings

- Duration of musical sounds is notated and organized around beats.
- What do I hear when I listen to music?
- Writing of rhythmic notation is a precise, mathematical language.

Students Will Know/Students Will Be Skilled At

- How notes are constructed and positioned on the staff to describe duration of sound including note head, stem direction, flag, and beaming.
- How to hear beats in rhythmic patterns and how to notate short rhythms from dictation, correctly fitting note values into a measure.
- Note values in various time signatures, including whole note, half note, quarter note, eighth note, sixteenth note, dotted notes, and their corresponding rest symbols.

- The difference between beat and rhythm.

Learning Plan

- Preview the essential questions and return to them throughout the course, in discussion and written assignments.
- Students practice writing and constructing notes in rhythmic patterns.
- Students will compose rhythmic patterns for each other to perform and write down.
- Students will take up to two measure rhythmic dictation, writing down what they hear in accurate notation.
- Teacher and students will practice note values and their names with worksheets, games, practice drills, flash cards, etc. Students will be asked to memorize the note values and their names.
- Teacher asks students to use previous knowledge from earlier learning, to name the different types of rhythmic notes and their values in a given time signature.

Evidence/Performance Tasks

Performing Arts students demonstrate differentiated proficiency according to their ability to answer the essential questions through formative and summative assessments. Evidence of progression may be demonstrated in divergent ways through the Artistic Processes of Creating, Performing/ Presenting/ Producing, Connecting, and Responding.

- Students will compose accurate rhythmic examples for other students to perform from, and/or to take dictation from.
- Students will demonstrate understanding of beaming by writing rhythmic patterns organized in quarter note beat patterns.
- Students will practice writing notes on the staff, creating accurate rhythmic patterns.
- Students will recognize and identify the different types of notes and their rhythmic values.
- Students will take short two-measure rhythmic dictation in simple 4/4 time patterns.
