Essential Questions/Enduring Understandings

• Chords are the basic structures of harmony and they can be arranged in a variety of ways to produce different aural effects.

• There are typical progressions of chords that are heard in all types of music.

• What do I hear when I listen to music?

• What is harmony?

Students Will Know/Students Will Be Skilled At

• How to choose chords to accompany a melody.

• How to create accompnaiment arrangements including block chords, arppegiated chords, ostinato, walking bass line, and other figures.

• The typical progression of chords within a major or minor key.

Learning Plan

• Preview the essential questions and return to them throughout the course, in discussion and written assignments.

• Students bring in recordings of their own popular songs and work together to determine the chord

progressions within the songs.

• Students compose melodies and harmonize them using diatonic chords and following the chords of the progression chart.

• Students create their own chord progressions that conform to the progression chart and share them with the class.

• Teacher and students discuss chord progressions and how one chord moves to the next in a given piece of music.

• Teacher describes the most common chord progressions, I, IV, V, I, or I vi IV V, or I VI vi V, etc. and shares multiple recorded and written examples, especially from popular songs.

• Teacher presents students with the "progression chart" for both major and minor keys, known as "functional harmony."

Evidence/Performance Tasks

Performing Arts students demonstrate differentiated proficiency according to their ability to answer the essential questions through formative and summative assessments. Evidence of progression may be demonstrated in divergent ways through the Artistic Processes of Creating, Performing/ Presenting/ Producing, Connecting, and Responding.

• Students compose block chord progressions that conform to the progression chart.

• Students harmonize a given melody with chords in progression.

• Students memorize the progression chart and the typical diatonic chord movement.

• Students recognize and identify common chord progressions in popular music.

• Students write their own melody in a major key and harmonize it with chords in progression.
