Suggested Strategies for Modification

one-to-one instruction and assistance cooperative learning groups study partners additional time on task alternative outcome options assessment based on individual development in the area of study images and visual aids handouts of notes, procedures, processes, diagrams, etc. preferential seating audio tape of instruction reading material modified to student level testing materials appropriate to student level Provide copy of accurate class notes Adjust number of items student is expected to complete Allow extra time for task completion Allow verbal rather than written responses Modify curriculum content based on student's ability level Allow typed rather than handwritten responses Modified homework assignments (modify content, modify amount, as appropriate) Assistance with organization of materials/notebooks Use a consistent daily routine Assist student in setting short-term goals Break down tasks into manageable units Provide benchmarks for long-term assignments and/or projects Use of checklists Use of an assignment notebook or planner Provide timelines for work completion Provide organizational support through teacher websites Provide organizers/study guides Require classroom notebooks and/or folders Frequently check for understanding Simplify task directions Provide hands-on learning activities Provide modeling Provide guided instruction Modify pace of instruction to allow additional processing time

Provide small group instruction

Present information via the visual modality(written material to supplement oral explanation, models, illustrations, assignments written on board)

Provide outline in advance of lecture

Demonstrate directions and provide a model or example of completed task

Emphasize multi-sensory presentation of data

Encourage use of mnemonic devices

Provide oral as well as written instructions/directions

Allow for repetition and/or clarification of directions, as needed

Reinforce visual directions with verbal cues

Give direct and uncomplicated directions

Orient to task and provide support to complete task

Help to develop metacognitive skills (self-talk and self-correction)

Directions repeated, clarified or reworded

Have student demonstrate understanding of instructions/task before beginning assignment

Allow wait time for processing before calling on student for response

Read directions aloud

Administer work in small segments

Provide visual models of completed tasks

Give verbal as well as written directions

Use interests to increase motivation

Enlarge print

Modified grading

Additional time to complete classroom tests/quizzes

Announce test with adequate prep time

Small group administration of classroom tests/quizzes

Modified tests/quizzes Modify the number of choices on tests/quizzes

Modify length of test

Modify the content of tests/quizzes
