05 Moving the Victim

Content Area:Health and Physical EducationCourse(s):Time Period:Time Period:Marking Period 1Length:3 DaysStatus:Published

Brief Summary of Unit

This unit demonstrates the various safe ways to move a victim and stresses the importance of when not to move a victim.

Standards

HE.9-12.2.1.12.EH.3	Describe strategies to appropriately respond to stressors in a variety of situations (e.g., academics, relationships, shootings, death, car accidents, illness).
HE.9-12.2.1.12.CHSS.5	Analyze a variety of health products and services based on cost, availability, accessibility, benefits and accreditation in the home, school, and in the community (e.g., suicide prevention, breast/testicular self-examination, CPR/AED, life skills training, menstrual products).
HE.9-12.2.3.12.PS.3	Summarize New Jersey motor vehicle laws and regulations, Safe Stops, and determine their impact on health and safety (e.g., organ/tissue donation, traffic safety, avoid driving distractors, seatbelt use, the use of hand-held devices).
HE.9-12.2.3.12.PS.4	Investigate the relationship between alcohol, drug use, and motor vehicle crashes and analyze the short- and long-term consequences of these actions.
HE.9-12.2.3.12.HCDM.4	Evaluate emerging methods to diagnose and treat diseases and health conditions that are common in young adults in the United States and in other countries (e.g., hepatitis, stroke, heart attacks, cancer,).

Essential Questions

What are the situations when a victim should be moved? How do we properly move a victim?

What are the different ways to move a victim?

Students Will Know/ Students Will Be Skilled At

based on the severity of the injury, an assessment must be made to determine the proper movement of the victim.

How to move a victim based on the safety of the environment

key terms: two-person seat carry, walking assist, pack strap carry, clothes drag, blanket drag, foot drag

6 ways to properly move a victim based on safety, severity of injury or illness, and materials available

Learning Plan

Preview the essential questions and connect to learning throughout the unit. Introduce the different ways to move a victim. Discuss the situations in relation to the proper movement. Evaluate the techniques used to move the victim.

Demonstration

Evidence/ Performance Tasks

demonstrate the 6 ways to move a victim. complete a weekly written/oral test. answer the essential questions.

scenario

Materials

mats

power point

video

Suggested Strategies for Modification

Provide copy of accurate class notes Adjust number of items student is expected to complete Allow extra time for task completion Allow verbal rather than written responses Modify curriculum content based on student's ability level Allow typed rather than handwritten responses Modified homework assignments (modify content, modify amount, as appropriate) Assistance with organization of materials/notebooks Use a consistent daily routine Assist student in setting short-term goals Break down tasks into manageable units Provide benchmarks for long-term assignments and/or projects Use of checklists Use of an assignment notebook or planner Provide timelines for work completion Provide organizational support through teacher websites Provide organizers/study guides Require classroom notebooks and/or folders Frequently check for understanding Simplify task directions Provide hands-on learning activities Provide modeling Provide guided instruction Modify pace of instruction to allow additional processing time Provide small group instruction

Present information via the visual modality(written material to supplement oral explanation, models, illustrations, assignments written on board) Provide outline in advance of lecture Demonstrate directions and provide a model or example of completed task Emphasize multi-sensory presentation of data Encourage use of mnemonic devices Provide oral as well as written instructions/directions Allow for repetition and/or clarification of directions, as needed Reinforce visual directions with verbal cues Give direct and uncomplicated directions Orient to task and provide support to complete task Help to develop metacognitive skills (self-talk and self-correction) Directions repeated, clarified or reworded Have student demonstrate understanding of instructions/task before beginning assignment Allow wait time for processing before calling on student for response Read directions aloud Administer work in small segments Provide visual models of completed tasks Give verbal as well as written directions Use interests to increase motivation Enlarge print Modified grading Additional time to complete classroom tests/quizzes Announce test with adequate prep time Small group administration of classroom tests/quizzes Modified tests/quizzes Modify the number of choices on tests/quizzes Modify length of test

Modify the content of tests/quizzes Adjust test format to student's ability level Provide manipulative examples Develop charts, visual outlines, diagrams, etc. Verbally guide student through task steps Allow for oral rather than written responses on tests Allow for oral follow-up for student to expand on written response Allow use of a computer Provide a word bank for fill-in-the blank tests Allow dictated responses in lieu of written responses Do not penalize for spelling errors Allow typed rather than handwritten responses Provide word banks for recall tests Read test aloud Allow student to make test corrections for credit Alternate test-taking site Seat student near front of room Preferential seating Monitor on-task performance Arrange private signal to cue student to off-task behavior Establish and maintain eye contact when giving oral directions Stand in proximity to student to focus attention Provide short breaks when refocusing is needed Arrange physical layout to limit distractions Frequently ask questions to engage student Refocusing and redirection Behavior/time management system

Include brainstorming as a pre-writing activity Edit written work with teacher guidance Allow use of word processor Discuss behavioral issues privately with student Provide opportunities for peer interactions Utilize student in development of tasks/goals Encourage student to self-advocate Minimize negative behavior Present alternatives to negative behavior Desensitize student to anxiety causing events Monitor for overload, excess stimuli Identify triggers Help student manage antecedents Develop signal for when break is needed Give student choices to allow control Provide positive reinforcement Provide consistent praise to elevate self-esteem Model and role play problem solving Provide counseling Use social skills group to teach skills and provide feedback
