# 14 First Aid

Content Area: Health and Physical Education

Course(s):

Time Period: Marking Period 1

Length: **3 Days** Status: **Published** 

## **Brief Summary of Unit**

This unit will give the students basic procedures to follow for assisting someone needing first aid.

#### **Standards**

HE.9-12.2.1.12.EH.3	Describe strategies to appropriately respond to stressors in a variety of situations (e.g., academics, relationships, shootings, death, car accidents, illness).
HE.9-12.2.1.12.CHSS.5	Analyze a variety of health products and services based on cost, availability, accessibility, benefits and accreditation in the home, school, and in the community (e.g., suicide prevention, breast/testicular self-examination, CPR/AED, life skills training, menstrual products).
HE.9-12.2.3.12.PS.3	Summarize New Jersey motor vehicle laws and regulations, Safe Stops, and determine their impact on health and safety (e.g., organ/tissue donation, traffic safety, avoid driving distractors, seatbelt use, the use of hand-held devices).
HE.9-12.2.3.12.PS.4	Investigate the relationship between alcohol, drug use, and motor vehicle crashes and analyze the short- and long-term consequences of these actions.
HE.9-12.2.3.12.HCDM.4	Evaluate emerging methods to diagnose and treat diseases and health conditions that are common in young adults in the United States and in other countries (e.g., hepatitis, stroke, heart attacks, cancer,).
HE.9-12.2.3.12.HCDM.5	Analyze local, state, and international public health efforts to prevent and control diseases and health conditions (e.g., vaccinations, immunizations, medical exams, gene editing, artificial organ systems, prosthesis).

# **Essential Questions**

How do we treat someone with a soft tissue injury?

What is the difference between a fracture/dislocation? sprain/strain?

What is the acronym to care for someone with a muscle, bone or joint injury?

How would you control severe bleeding?

How do you care for shock?

How to recognize the differences amongst the sudden illnesses?

What steps are necessary for a heat and cold related emergencies?

#### Students Will Know/ Students Will Be Skilled At

how to recognize the differences in sudden illnesses. how to apply a sling and binder to a person with an injured arm the acronym, RICE (Rest, Ice, Compression, Elevation) and its relationship to helping a victim with injuries to bones, joints and muscles.

controlling severe bleeding

applying a sling and binder and when?

assessing the symptoms of sudden illnesses

application of the acronym RICE

Consent, direct pressure, roller bandage and tying directly over the injury

Lie victim flat on the ground, keep them comfortable, cool them down if necessary, Call 911

Assessing the signs and symptoms of stroke, seizure, diabetic emergencies and poisonings

Heat- remove them from the environment, hydrate, cool down gradually; cold-gradually warm them up,

remove wet clothing, get them into warm surroundings

key terms: dressing, direct pressure, cravat, gauze, RICE, FAST (Face, Arms, Speech, Time), splinting, circulation, transporting, stroke, seizure, diabetic emergency, poisoning, disease transmission, paralysis, convulsion, inhalation, absorption, injection, poison control center,

heat cramps, heat exhaustion, heat stroke, frostbite, hypothermia, shock, quick relief medication, auto-injector

## **Learning Plan**

Preview the essential questions and connect to learning throughout the unit.

Preview the video for a visual understanding for differentiated learning style.

Introduce basic training for all first aid procedures.

Demonstrate the steps for applying a sling and binder.

Demonstrate the steps to control severe bleeding.

Self-evaluate performance with partner prior to skill testing.

## **Evidence/ Performance Tasks**

practice the steps with a partner.

perform a skill test for "controlling severe bleeding" on a partner.

skill test on the proper steps for sling and binder.

complete a weekly written/oral test.

answer the essential questions.

scenario

#### **Materials**

Power Point

Video

Sling and binder

## **Suggested Strategies for Modification**

Provide copy of accurate class notes

Adjust number of items student is expected to complete

Allow extra time for task completion

Allow verbal rather than written responses

Modify curriculum content based on student's ability level

Allow typed rather than handwritten responses

Modified homework assignments

(modify content, modify amount, as appropriate)

Assistance with organization of materials/notebooks

Use a consistent daily routine

Assist student in setting short-term goals

Break down tasks into manageable units

Provide benchmarks for long-term assignments and/or projects

Use of checklists

Use of an assignment notebook or planner

Provide timelines for work completion

Provide organizational support through teacher websites

Provide organizers/study guides

Require classroom notebooks and/or folders

Frequently check for understanding

Simplify task directions

Provide hands-on learning activities

Provide modeling

Provide guided instruction Modify pace of instruction to allow additional processing time Provide small group instruction Present information via the visual modality(written material to supplement oral explanation, models, illustrations, assignments written on board) Provide outline in advance of lecture Demonstrate directions and provide a model or example of completed task Emphasize multi-sensory presentation of data Encourage use of mnemonic devices Provide oral as well as written instructions/directions Allow for repetition and/or clarification of directions, as needed Reinforce visual directions with verbal cues Give direct and uncomplicated directions Orient to task and provide support to complete task Help to develop metacognitive skills (self-talk and self-correction) Directions repeated, clarified or reworded Have student demonstrate understanding of instructions/task before beginning assignment Allow wait time for processing before calling on student for response Read directions aloud Administer work in small segments Provide visual models of completed tasks Give verbal as well as written directions

Use interests to increase motivation

Announce test with adequate prep time

Additional time to complete classroom tests/quizzes

Enlarge print

Modified grading

Small group administration of classroom tests/quizzes Modified tests/quizzes Modify the content oftests/quizzes Adjust test format to student'sability level Provide manipulative examples Develop charts, visual outlines, diagrams, etc. Verbally guide student through task steps Allow for oral rather than written responses on tests Allow for oral follow-up for student to expand on written response Allow use of a computer Provide a word bank for fill-in-the blank tests Allow dictated responses in lieu of written responses Do not penalize for spelling errors Allow typed rather than handwritten responses Provide word banks for recall tests Read test aloud Allow student to make test corrections for credit Alternate test-taking site Seat student near front of room Preferential seating Monitor on-task performance Arrange private signal to cue student to off-task behavior Establish and maintain eye contact when giving oral directions Stand in proximity to student to focus attention Provide short breaks when refocusing is needed Arrange physical layout to limit distractions Frequently ask questions to engage student

Refocusing and redirection

Behavior/time management system

Include brainstorming as a pre-writing activity

Edit written work with teacher guidance

Allow use of word processor

Discuss behavioral issues privately with student

Provide opportunities for peer interactions

Utilize student in development of tasks/goals

Encourage student to self-advocate

Minimize negative behavior

Present alternatives to negative behavior

Desensitize student to anxiety causing events

Monitor for overload, excess stimuli

Identify triggers

Help student manage antecedents

Develop signal for when break is needed

Give student choices to allow control

Provide positive reinforcement

Provide consistent praise to elevate self-esteem

Model and role play problem solving

Provide counseling

Use social skills group to teach skills and provide feedback
