Content Area: **English Language Arts**
Course(s):
Time Period: **Marking Period 1**
Length: **3-5 Weeks**
Status: **Published**

Brief Summary of Unit

Students critically analyze media to which they are continuously exposed, including video and images, to identify persuasive strategies. Students will focus in particular on the visual presentation techniques that enhance the persuasiveness of the text and will gather and present their own examples of effective advertisements. Following this period of immersion and analysis, students will determine a set of criteria and create their own commercials using rhetorical and video editing techniques to promote an idea, product, or concept of their choosing.

Interdisciplinary Connections and Career Readiness: This unit is designed to be part of a developmental progression across grade levels and make interdisciplinary connections across content areas including physical and social sciences, technology, career readiness, cultural awareness, and global citizenship. During this course, students are provided with opportunities to develop skills that pertain to a variety of careers. When completing this course, students can make informed choices and pursue electives that further their study and contribute toward the formation of career interest.

Follow up diagnostic assessments are used to target skill remediation. Student proficiency allows for additional or alternative assessment based on demonstration or absence of skill.

Students demonstrate differentiated proficiency through both formative and summative assessments in the classroom. Based on individual student readiness and performance, assessments can be implemented as formative and/or summative.

Learning Plan

Instructional time will be dedicated to whole class text instruction, collaborative learning, and independent and personalized learning. The intent is for student-readers to have clear modelling through whole-class instruction. These strategies are practiced in a group setting of peers and through independent practice monitored through teacher conferencing with students. An emphasis will be based on the transfer of skills instruction, teaching the reader, not merely the content of the text. The text complexity and rigor of reading will be appropriate for grade 9-12; materials selection for whole-class and literature circles will be from the book list approved by the Board of Education. Classrooms will house rich and diverse independent reading

libraries of both contemporary and canonical works.

The reading of text during this class targets not only comprehension, but also analysis. Students may read both long-and short-form, exceprted and full-length, print and electronic, fiction and nonfiction texts. Study will include the analysis of visual texts including film clips, art, infographic, maps, charts, graphs, cartoons, graphic novel. Technique and terminology specific to a genre of reading is examined. Research tasks are embedded throughout the year and a minimum of one task is completed during each unit. Vocabulary instruction will be chosen from the reading material.

Students write in all modes of rhetoric including narration/description, argument/persuasion, and exposition. Various forms of writing including digital writing are emphasized as well. Grammar instruction is embedded in writing instruction through mini-lessons, holding students accountable for skills taught and practiced; modelling is done through mentor texts, both published and student-crafted. Teachers focus on process in addition to product with an emphasis on synthesizing texts with nuanced understanding; teacher-created multi-modal text sets will be used as materials. High-and low-stakes, timed and untimed pieces are all important.

Students will be taught how to speak and listen in addition to being assessed on these skills.

- ● Compare advertisements that use different media to accomplish similar purposes, and analyze variations in strategy and technique according to form

- ● Analyze a set of teacher-sourced advertisements to determine advertiser's intended audience, goal, and main rhetorical strategy.

- ● Create a list of techniques used by advertisers in video forms

- ● Create a short video using digital video editing software, such as iMovie or Windows Movie Maker to familiarize students with the tools

- ● Create a video advertisement on topic of student choice that uses carefully chosen rhetorical techniques and strategies to appeal to an intended audience

- ● Develop a personalized rubric that includes a set of techniques the student will use in creating their own advertisement

- ● Evaluate and analyze peer projects and provide meaningful feedback

- ● Find and create a packet of student-sourced advertisements for each of the major rhetorical strategies

- ● Identify common techniques used for persuasion, with a focus on Aristotle's rhetorical triangle and appeals: pathos (emotion), ethos (ethics), and logos (logic).

- ● Understand the responsible use of digital media through assessing the quality of online resources; analyze usability, bias, applicability, authenticity, and authorship; inform internet protocol and exercise safety practices for savvy surfing.

- ● Use MAPS strategy to analyze advertisements: Mode, Media, Audience, Purpose, Situation (See teacher resources, Troy Hick's Digital Writing)

- ● 	Use the SOAPStone (Speaker, Occasion, Audience, Purpose, Subject, Tone) AP method of analyzing advertisements.

- ● 	Use the Toulmin approach to analyzing argument by examining the first triad: claim (of value, fact, or policy), substantive evidence (qualitative and quantitative), and warrant (underlying assumption based on fallacies).

- ● 	Write self-reflections to reflect thoughtfully on process, successes, and struggles in planning, production, and achievement of goals

Materials

The materials used in this course integrate a variety of leveled instructional, enrichment, and intervention materials that support student learners at all levels in the school and home environments. Associated web content and media sources are infused into the unit as applicable and available.
