Brief Summary of Unit

This unit will be used to introduce rhetoric, rhetorical analysis, and close reading strategies as foundational elements of the AP Language and Composition course. Discussion of rhetoric will include an author's purpose, audience, organization, and development of claims that are made in both oral and written discourse. Students will come to understand the Toulmin Model of Argumentation as well as the use of Aristotle's Rhetorical Triangle to determine the role appeals, including Logos, Pathos, and Ethos, play in the development of a persuasive argument. Within this unit, students will explore different modes of writing with a focus on understanding the purposeful usage of varied rhetorical strategies including diction/syntax, details, imagery, and tone as elements which help establish an author's perspective in connection with the meaning of a work. Students will make use of effective problem-solving strategies as they utilize primary and secondary sources, including those gleaned from research, to establish relevance, significance, and accuracy within the scope of their inquiry.

This unit is designed to be part of a developmental progression across grade levels and make interdisciplinary connections across content areas including physical and social sciences, technology, career readiness, cultural awareness, and global citizenship. During this course, students are provided with opportunities to develop skills that pertain to a variety of careers. When completing this course, students can make informed choices and pursue electives that further their study and contribute toward the formation of career interest.

Revision: June 2023

Follow up diagnostic assessments are used to target skill remediation. Student proficiency allows for additional or alternative assessment based on demonstration or absence of skill.

Students demonstrate differentiated proficiency through both formative and summative assessments in the classroom. Based on individual student readiness and performance, assessments can be implemented as formative and/or summative.

Learning Plan

Instructional time for reading will be divided into thirds; one third of the time will be dedicated to whole class text instruction; one third will include literature circles; one third, independent reading. The intent is for student-readers to have clear modelling through whole-class instruction. These strategies are practiced through literature circles in a group setting of peers and through independent practice monitored through teacher conferencing with students. An emphasis will be based on the transfer of skills instruction, teaching the reader, not merely the content of the text. The text complexity and rigor of reading will be appropriate for grade 11; materials selection for whole-class and literature circles will be from the book list approved by the Board of Education. Classrooms will house rich and diverse independent reading libraries of both contemporary and canonical works.

The reading of text during the eleventh grade targets not only comprehension, but also analysis, and synthesis. Students will read both long-and short-form, excerpted and full-length, print and electronic, fiction and nonfiction texts. Study will include the analysis of visual texts including film clips, art, infographic, maps, charts, graphs, cartoons, graphic novel. Technique and terminology specific to a genre of reading is examined. Research tasks are embedded throughout the year and a minimum of one task is completed during each unit. Vocabulary instruction will be chosen from the reading material.

Students write in all modes of rhetoric including narration/description, argument/persuasion, and exposition. Various forms of writing including digital writing are emphasized as well. Grammar instruction is embedded in writing instruction through mini-lessons, holding students accountable for skills taught and practiced; modelling is done through mentor texts, both published and student-crafted. Teachers focus on process in addition to product with an emphasis on synthesizing texts with nuanced understanding; teacher-created multi-modal text sets as well as text sets gleaned from APCentral.collegeboard.org will be used as materials. High-and low-stakes, timed and untimed pieces are all important. Students will be taught how to speak and listen in addition to being assessed on these skills.

This unit of study will focus on "Perspective, Purpose, and Persuasive Appeals."

For this particular unit, teachers may . . .

- Create a collaborative lesson, using classroom technology (Google Slides, Prezi), that presents an author's claim and dissects the development and evidence utilized in the text
- Critically read and analyze both non-fiction and fiction mentor texts that utilize key rhetorical strategies used on the AP exam
- Engage in basic calibration of AP written responses in small groups
- Engage in both untimed and timed writing of synthesis, rhetorical strategies, and persuasive AP-style essays
- Engage in untimed AP objective question practice
- Have students develop written examples that mirror the use of rhetorical strategies in mentor texts presented in class
- Introduce key terminology in relation to rhetorical strategies, development of a written argument, and the writing process
- Introduce the objectives, structure, and components of the AP Language and Composition College Board Examination
- Orally and in writing, justify explanations for AP responses and calibrated scoring
- Present essential questions in conjunction with selected AP critical reading and writing assignments
- Use scaffolding to build verbal and written rationales to justify AP question responses
- Work in collaborative teams to read, discuss, and thus analyze an author's developed argumentative claim, evidence/data, and use of appeals
