Evidence/Performance Tasks

Developmental progression across years in both reading and writing is evidenced by multiple benchmark assessment screeners, administered two times per year. Follow up diagnostic assessments are used to target skill remediation. Student proficiency allows for additional or alternative assessment based on demonstration or absence of skill.

Students demonstrate differentiated proficiency through both formative and summative assessments in the classroom. Based on individual student readiness and performance, assessments can be implemented as formative and/or summative.

Learning Plan

The intent is for student-readers to have clear modeling through whole-class instruction. These strategies are practiced in a group setting of peers and through independent practice monitored through teacher conferencing with students. An emphasis will be based on the transfer of skills instruction, teaching the reader, not merely the content of the text. The text complexity and rigor of reading will be appropriate for the grade level; materials selection for whole-class will be from the book list approved by the Board of Education.

The reading of text targets not only comprehension, but also analysis. Students will read both long-and short-form, excerpted and full-length, print and electronic, fiction and nonfiction texts. Study will include the analysis of visual texts including film clips, art, infographic, maps, charts, graphs, cartoons, graphic novels. Technique and terminology specific to a genre of reading is examined. Vocabulary instruction may be chosen

from the reading material and may be incorporated through targeted word study lessons.

Students write in all modes of rhetoric including narration/description, argument/persuasion, and exposition. Various forms of writing including digital writing are emphasized as well. Grammar instruction is embedded in writing instruction through Sentence Study, holding students accountable for skills taught and practiced; modeling is done through mentor texts, both published and student-crafted. Students may complete analytical analysis, persuasive writing, synthesis essays, database research, and journal writing. Teachers focus on process in addition to product with an emphasis on synthesizing texts with nuanced understanding; teacher-created multimodal text sets will be used as materials. High-and low-stakes, timed and untimed pieces are all important.

Students will be taught how to speak and listen in addition to being assessed on these skills.

Teachers may personalize instruction during this unit and address the distinct learning needs, interests, aspirations, or cultural backgrounds of individual students. Personalized Learning allows students to self-reflect and assess their own reading, writing, listening, viewing and speaking skills through the development of an electronic portfolio, journal writing, writer's notebook, independent reading, and/or book talks.
