Follow up diagnostic assessments are used to target skill remediation. Student proficiency allows for additional or alternative assessment based on demonstration or absence of skill.

Students demonstrate differentiated proficiency through both formative and summative assessments in the classroom. Based on individual student readiness and performance, assessments can be implemented as formative and/or summative.

The performance tasks listed below are examples of the types of assessments teachers may use in the classroom and the data collected by the district to track student progress.

Learning Plan

Teaching Point: There are many aspects of an effective, engaging story. Possible Activities: 1. Look at magazine articles and discuss what makes the stories engaging or entertaining. 2. Look at previous yearbooks and books from other schools and discuss the types of stories involved. 3. Present the types of copy and parts of an effective story. 4. Identify from magazines and previous yearbooks ways of including information without writing a traditional story. 5. Brainstorm ways you can convey relevant information without a traditional story.

Teaching Point: Effective writing requires multiple drafts. Possible ActivityEach student writes a short quick story, either from imagination or from some sort of visual prompt and students pass the stories around while editing, revising, and proofreading to make them better. Compare and contrast first drafts and final drafts.

Teaching Point: Templates are a guideline and don't need to be strictly adhered to as long as the layouts look unified. Possible Activities: 1. Students look through old yearbooks and notice what slight differences exist from page to page and what largely stays the same within each section. 2. Show students the Modules on the design program and how they can put slightly different elements in each module without changing the entire look of the page. 3. Students discuss what types of things can be changed within templates without entirely changing and what things need to stay the same.

Teaching Point: Good interviews are planned out in advance of the conversation. Possible Activities:

1. Students come up with interesting questions or topics for interviews for various pages in groups or individually.
2. Mock interviews in class with each other.
3. Students actually go out and speak with students and staff on previously decided topics.

Throughout the unit, students will: Gather information ethically for a story; Identify all students in captions for each photo; Double check names for accuracy; Conduct interviews and have interviewees sign off on all quotes to be used in the yearbook; Revise, edit, and proofread each other's copy; Meet regularly to discuss effectiveness of copy and determine sectional design for copywriting; Editors will meet with staff to disperse writing and research assignments; Research designated topics using the computer and CHS community.
