BRIEF SUMMARY OF UNIT

FOCUS: “It usually takes me more than three weeks to prepare a good impromptu speech.” – Mark Twain

Summary: This unit centers on the importance of effective communication including listening, viewing, speaking, and nonverbal movement skills. The unit enables students to use language, voice and movement to develop collaborative, interpersonal and intrapersonal skills. The students will understand the importance of communication by creating and answering interview questions, presenting extemporaneous responses and speeches, and utilizing para language techniques. Students will actively engage in both large and small collaborative discussions and dialogues that enhance critical thinking and analysis of textual works. Students may complete mock interviews, anecdotal accounts, pantomime and communication activities, and informational, motivational and persuasive presentations. This unit will consist of a competitive speech event which provides an opportunity for students to rehearse various speaking techniques to engage, motivate, and/or persuade an audience. Personalized Learning allows students to self reflect and assess their own listening and speaking skills using the development and competition of a electronic portfolio. Students will understand that developing communication skills builds and maintains relationships, facilitates innovation, builds effective partnerships, and develops leadership.

Interdisciplinary Connections and Career Readiness: This unit is designed to be part of a developmental progression across grade levels and make interdisciplinary connections across content areas including physical and social sciences, technology, career readiness, cultural awareness, and global citizenship. During this course, students are provided with opportunities to develop skills that pertain to a variety of careers. When completing this course, students can make informed choices and pursue electives that further their study and contribute toward the formation of career interest.

Learning Plan

Instructional time will be dedicated to whole class text instruction, collaborative learning, and independent and personalized learning. The intent is for student-readers to have clear modelling through whole-class instruction. These strategies are practiced in a group setting of peers and through independent practice monitored through teacher conferencing with students. An emphasis will be based on the transfer of skills instruction, teaching the reader, not merely the content of the text. The text complexity and rigor of reading will be appropriate for grade 9-12; materials selection for whole-class and literature circles will be from the book list approved by the Board of Education. Classrooms will house rich and diverse independent reading libraries of both contemporary and canonical works.

The reading of text during the ninth through twelfth grade targets not only comprehension, but also analysis. Students will read both long-and short-form, excerpted and full-length, print and electronic, fiction and nonfiction texts. Study will include the analysis of visual texts including film clips, art, infographic, maps, charts, graphs, cartoons, graphic novel. Technique and terminology specific to a genre of reading is examined. Research tasks are embedded throughout the year and a minimum of one task is completed during each unit. Vocabulary instruction will be chosen from the reading material.

Teachers focus on process in addition to product with an emphasis on synthesizing texts with nuanced understanding; teacher-created multi-modal text sets will be used as materials. High-and low-stakes, timed and untimed pieces are all important.

This unit will focus on "Extemporaneous Speaking" and is centered on the quotation from Mark Twain: "It usually takes me more than three weeks to prepare a good impromptu speech."

Students will be taught how to speak and listen in addition to being assessed on these skills.
