

Unit 3 - Realistic Fiction: the Art of the Graphic Novel

Content Area: **English Language Arts**
Course(s):
Time Period: **Marking Period 2**
Length: **4-5 Weeks**
Status: **Published**

Brief Summary of Unit

Students will study graphic novel techniques and visual literacy through realistic fiction with the purpose of crafting a complete comic book. Students will explore terminology such as graphic weight, frame, panel, etc. as well as visual techniques relating to symbols, perspective, and transitions in order to break down literary works. Students will then be asked to transfer these skills in a variety of discussions, both small and large, and writing activities culminating in an original graphic work. Drawing on past units of study, students will write an original narrative based on their own superhero, a personal memoir, or a realistic fiction in the standard one-shot 23-page comic form.

Interdisciplinary Connections and Career Readiness: This unit is designed to be part of a developmental progression across grade levels and make interdisciplinary connections across content areas including physical and social sciences, technology, career readiness, cultural awareness, and global citizenship. During this course, students are provided with opportunities to develop skills that pertain to a variety of careers. Learning Plan

Instructional time for reading will be divided into thirds; one third of the time will be dedicated to whole class text instruction; one third will include literature circles; one third, independent reading. The intent is for student-readers to have clear modelling through whole-class instruction. These strategies are practiced through literature circles in a group setting of peers and through independent practice monitored through teacher conferencing with students. An emphasis will be based on the transfer of skills instruction, teaching the reader, not merely the content of the text. The text complexity and rigor of reading will be appropriate for grade 11; materials selection for whole-class and literature circles will be from the book list approved by the Board of Education. Classrooms will house rich and diverse independent reading libraries of both contemporary and canonical works.

The reading of text targets not only comprehension, but also analysis. Students will read both long-and short-form, excerpted and full-length, print and electronic, fiction and nonfiction texts. Study will include the analysis of visual texts including film clips, art, infographic, maps, charts, graphs, cartoons, graphic novel. Technique and terminology specific to a genre of reading is examined. Research tasks are embedded throughout the year and a minimum of one task is completed during each unit. Vocabulary instruction will be

chosen from the reading material.

Students will write original narratives. Various forms of writing including digital writing are emphasized as well. Grammar instruction is embedded in writing instruction through mini-lessons, holding students accountable for skills taught and practiced; modelling is done through mentor texts, both published and student-crafted. Teachers focus on process in addition to product with an emphasis on synthesizing texts with nuanced understanding; teacher-created multi-modal text sets will be used as materials. High-and low-stakes, timed and untimed pieces are all important.

Teachers may personalize instruction during this unit and address the distinct learning needs, interests, aspirations, or cultural backgrounds of individual students.

This unit of study focuses on realistic fiction, the art of the graphic novel and narrative writing.

Potential Lesson Plans/Activities may include:

- Visual literacy analysis and support activity.
- Graphic novel terminology and technique review. Have students identify various graphic novel techniques (expanding on those covered in the first unit) and then have students, in groups, recreate a subsection of those techniques for the class to identify.
- Provide background information and essential question for a whole class graphic novel.
- Utilize text free graphic novel excerpts and ask students to analyze the images and text separately before analyzing the two together.
- Conduct guided reading and discussion of initial portions of a group text.
- Review Freytag's pyramid and use it to map the plot of a one-shot comic (23 pages).
- In partnerships, small groups, jigsaw groupings, and Socratic circles, discuss the development of structure, language, rhetorical techniques, visual techniques, and thematic concepts.
- Synthesize information from nonfiction texts, poems, and images relating to theme.
- Conduct short analytical writing activities to review writing conventions.
- Review film cinematic techniques such as shots, angles, lighting, color, etc. and ask students to analyze purpose.
- Have students storyboard a scene using the cinematic techniques reviewed and then shoot the scene.
- Watch film adaptation of *Road to Perdition* and have students analyze how the cinematic techniques translate from the graphic novel to the film.
- Introduce literature circle selections and have students take notes and rank their choices.
- Review plot structure using Kurt Vonnegut's Shape of Stories and have students track character progression throughout their literature circle selection.
- In small literature circle groups, students will analyze characterization and thematic elements.
- Students will identify and analyze key pages and plot events in regards to their impact on their protagonist.
- With their literature circle groups, have students craft a short realistic narrative in the form of a comic strip.
- Students will produce an original narrative one-shot comic (22-30 pages). This could fit any of the

genres previously studied in the class.
