Learning Plan

Instructional time for reading will be divided into thirds; one third of the time will be dedicated to whole class text instruction; one third will include literature circles; one third, independent reading. The intent is for student-readers to have clear modelling through whole-class instruction. These strategies are practiced through literature circles in a group setting of peers and through independent practice monitored through teacher conferencing with students. An emphasis will be based on the transfer of skills instruction, teaching the reader, not merely the content of the text. The text complexity and rigor of reading will be appropriate for grade 11-12; materials selection for whole-class and literature circles will be from the book list approved by the Board of Education. Classrooms will house rich and diverse independent reading libraries of both contemporary and canonical works.

The reading of text targets not only comprehension, but also analysis. Students will read both long-and short-form, excerpted and full-length, print and electronic, fiction and nonfiction texts. Study will include the analysis of visual texts including film clips, art, infographic, maps, charts, graphs, cartoons, graphic novel. Technique and terminology specific to a genre of reading is examined. Research tasks are embedded throughout the year and a minimum of one task is completed during each unit. Vocabulary instruction will be chosen from the reading material.

Students write a variety of informational texts. Various forms of writing including digital writing are emphasized as well. Grammar instruction is embedded in writing instruction through mini-lessons, holding students accountable for skills taught and practiced; modelling is done through mentor texts, both published and student-crafted. Teachers focus on process in addition to product with an emphasis on synthesizing texts with nuanced understanding; teacher-created multi-modal text sets will be used as materials. High-and low-stakes, timed and untimed pieces are all important.

Teachers may personalize instruction during this unit and address the distinct learning needs, interests, aspirations, or cultural backgrounds of individual students.

This unit of study focuses on the Hero's Journey and informational writing.

Potential Lesson Plans/Activities may include:

- Visual literacy analysis and support activity.
- Graphic novel terminology and technique review. Have students identify various graphic novel techniques and then have students, in groups, recreate a subsection of those techniques for the class to identify.
- Provide background information and essential question for a whole class graphic novel.
- Utilize text free graphic novel excerpts and ask students to analyze the images and text separately before analyzing the two together.
- Conduct guided reading and discussion of initial portions of a group text.
- Review the hero's journey and have students analyze one of the characters from the text using that framework.
- Define and analyze social commentary, symbolism, metaphor and other literary terms.
- In partnerships, small groups, jigsaw groupings, and Socratic circles, discuss the development of structure, language, rhetorical techniques, visual techniques, and thematic concepts.
- Synthesize information from nonfiction texts, poems, and images relating to theme.
- Conduct short analytical writing activities to review writing conventions.
- Watch film adaptations of superhero works and divide the class into groups focusing on specific analytical tasks such as sound, color, acting, language.
- Introduce literature circle selections and have students take notes and rank their choices.
- In small literature circle groups, students will analyze the hero's journey and the structure of their work.
- Students will identify and analyze key pages and plot events in regards to their impact on the hero.
- Have students craft symbolically significant superhero's and short comic strips which provide some form of social commentary.
- Students will produce an informational video analysis or a vlog of their literature circle selection in which they analyze the works attempt at social commentary.
