Students will take place in basic and intermediate movement instruction in specific genres, including both technical and creative work, culminating in a performance.

Students will take part in individual or group research to bring relevant information to the class about specific styles or genres.

Suggested Strategies for Modification

Represent information in multiple formats and media.

Provide multiple pathways for students' actions and expressions.

Provide multiple ways to engage students' interests and motivation

Each student will be on their own individualized path learning codified dance techniques. One on one assistance, peer to peer feedback and video and writing assignments will help students who are struggling.

Injured students are expected to observe and write daily reflections on what they see. If they are in a small group they will give direction to the rest of the group and aid in any research or presentation process. If a student's injury is isolated to one part of the body, the student is expected to participate in the movement portion of the assignment and not use that body part.
