

Unit 1: My Community and Who I Am

Content Area: **Social Studies**
Course(s):
Time Period: **Trimester 1**
Length: **Trimester 1**
Status: **Published**

Summary

In Kindergarten Social Studies, students examine identity, community, family, and traditions. With a particular focus on belonging, both to a community and one's family, students explore what makes us all unique, but also what we have in common. Developmentally appropriate lessons related to spatial awareness, financial responsibility, and civic competence are also included as introductions to these important topics that will be explored in greater detail in grades one and two.

Throughout the course, students will be presented with opportunities to practice and refine the following Social Studies skills:

- Comparison - Compare and contrast different events, cultures, geographic areas, ideas, values, and institutions
- Perspective - Interpret different perspectives on a particular topic recognizing that views, experiences, or understandings may vary, but still be valued
- Causation - Evaluate the relationship between causes and effects and discuss continuities and changes over time
- Contextualization - Identify and explore the context (historical, geographic, situational, etc.) of different events, places or locations, symbols, or traditions

This unit is part of the larger aforementioned course sequence and specifically focuses on “My Community and Who I am” where students will learn that we have responsibilities to our communities; we need rules and laws to keep us safe; people live and work together in communities; it is important to get along with others; problem solving will resolve conflict; we are all unique individuals; and our experiences through our families and environments shape who we are. By the end of this unit, students will be able to: recognize why rules and laws provide safety to our communities; recognize community helpers and their roles in the community; provide resolution to conflict; and determine the similarities and differences between themselves and their peers based on family experiences and traditions.

The ability to make informed and reasoned decisions as citizens of a culturally diverse, democratic society in an increasingly globalized world is essential to students' post-secondary success. The skills and content of this unit and the curriculum as a whole encourage students to think critically about important issues, engage in the processes of problem solving, and develop civic competence as part of preparation for eventual college, career, and/or civic life.

Standards

In accordance with New Jersey’s Chapter 32 Diversity and Inclusion Law, this unit includes instructional materials that highlight and promote diversity, including: equity, inclusion, tolerance, and belonging in connection with gender and sexual orientation, race and ethnicity, disabilities, and religious tolerance.

The standards in this unit reflect a developmental progression across grade levels and make interdisciplinary connections across content areas including the humanities, technology, career readiness, cultural awareness, and global citizenship.

This unit is aligned to the English Language Development (ELD) standards for kindergarten through grade 12 since multilingual learners develop content and language concurrently, with academic content in a classroom where the language of instruction is English. As a result, language learning and language as a means for learning academic content are interchangeable. The following ELD standards are relevant for this unit and course of study:

- Standard 1: Language for Social and Instructional Purposes: English language learners communicate for social and instructional purposes within the school setting.
- Standard 5: Language for Social Studies: English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.
