

Unit 2: My Family History and Traditions

Content Area: **Social Studies**
Course(s):
Time Period: **Trimester 2**
Length: **Trimester 2**
Status: **Published**

Summary

In Kindergarten Social Studies, students examine identity, community, family, and traditions. With a particular focus on belonging, both to a community and one's family, students explore what makes us all unique, but also what we have in common. Developmentally appropriate lessons related to citizenship, historical timelines, and civic competence are also included as introductions to these important topics that will be explored in greater detail in grades one and two.

Throughout the course, students will be presented with opportunities to practice and refine the following Social Studies skills:

- Comparison - Compare and contrast different events, cultures, geographic areas, ideas, values, and institutions
- Perspective - Interpret different perspectives on a particular topic recognizing that views, experiences, or understandings may vary, but still be valued
- Causation - Evaluate the relationship between causes and effects and discuss continuities and changes over time
- Contextualization - Identify and explore the context (historical, geographic, situational, etc.) of different events, places or locations, symbols, or traditions

This unit is part of the larger aforementioned course sequence and specifically focuses on “My Family History and Traditions” where students will learn how understanding the past helps to make sense and develop a deeper appreciation of the present. By the end of this unit, students will be able to explain how family history can be shared and passed down between generations, and while some things change over time, some things also remain the same.

The ability to make informed and reasoned decisions as citizens of a culturally diverse, democratic society in an increasingly globalized world is essential to students' post-secondary success. The skills and content of this unit and the curriculum as a whole encourage students to think critically about important issues, engage in the processes of problem solving, and develop civic competence as part of preparation for eventual college, career, and/or civic life.

Revision Date: August 2022

Standards

This unit also reflects the goals of the Department of Education and the Amistad Commission including the infusion of the history of Africans and African-Americans into the curriculum in order to provide an accurate, complete, and inclusive history regarding the importance of African-Americans to the growth and development of American society in a global context.

In accordance with New Jersey's Chapter 32 Diversity and Inclusion Law, this unit includes instructional materials that highlight and promote diversity, including: equity, inclusion, tolerance, and belonging in connection with gender and sexual orientation, race and ethnicity, disabilities, and religious tolerance.

This unit further reflects the goals of the Holocaust Education mandate where students are able to identify and analyze applicable theories concerning human nature and behavior; understand that genocide is a consequence of prejudice and discrimination; understand that issues of moral dilemma and conscience have a profound impact on life; and understand the personal responsibility that each citizen bears to fight racism and hatred whenever and wherever it happens.

This unit is aligned to the English Language Development (ELD) standards for kindergarten through grade 12 since multilingual learners develop content and language concurrently, with academic content in a classroom where the language of instruction is English. As a result, language learning and language as a means for learning academic content are interchangeable. The following ELD standards are relevant for this unit and course of study:

- Standard 1: Language for Social and Instructional Purposes: English language learners communicate for social and instructional purposes within the school setting.
- Standard 5: Language for Social Studies: English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.

The standards in this unit reflect a developmental progression across grade levels and make interdisciplinary connections across content areas including the humanities, technology, career readiness, cultural awareness, and global citizenship.
