Unit 04: Personal Health

Content Area: **Health and Physical Education**
Course(s):
Time Period: **Marking Period 1**
Length: **1 Week**
Status: **Published**

Brief Summary of Unit

The ability to understand and incorporate wellness practices into one's daily living is vital to the well-being of our students and directly correlates to their optimal overall health. Effective health practices provide students with the potential for success when choosing a career and allow for the pursuit of any career interest. When taking this course, students develop their understanding of the interrelationship between wellness, overall well-being and success.

Students will learn and understand that physical activity and fitness benefits all aspects of health. Students will learn about the various activities and exercises that can help increase and maintain overall health. Students will also learn the importance of taking safety precautions when engaging in physical activity. Students will participate in various activities which will allow them to learn and apply knowledge of physical activity to personal life.

Revision Date: July 2020
