

# Unit 05: Body Systems

Content Area: **Health and Physical Education**

Course(s):

Time Period: **Marking Period 1**

Length: **1 Week**

Status: **Published**

## **Brief Summary of Unit**

---

The ability to understand and incorporate wellness practices into one's daily living is vital to the well-being of our students and directly correlates to their optimal overall health. Effective health practices provide students with the potential for success when choosing a career and allow for the pursuit of any career interest. When taking this course, students develop their understanding of the interrelationship between wellness, overall well-being and success.

Students will learn and understand that physical activity and fitness benefits all aspects of health. Students will learn about the various activities and exercises that can help increase and maintain overall health. Students will also learn the importance of taking safety precautions when engaging in physical activity. Students will participate in various activities which will allow them to learn and apply knowledge of physical activity to personal life.

**Revision Date:** July 2020

## **Standards**

---

By the end of Grade 8:

2.1 Mental Health: Emotional and Social Wellness

Personal Growth and Development

Responsible actions regarding behavior can impact the development and health of oneself and others.

- 2.1.8.PGD.4: Analyze the relationship between healthy behaviors and personal health

Community Health Services and Support

Potential solutions to health issues are dependent on health literacy and locating resources accessible in a community.

- 2.1.8.CHSS.1: Identify professionals at school and in the community available to assist with health conditions and emergencies, sexual health services, life skills training and describe how they can be accessed (e.g., suicide prevention, CPR/AED, breast self-examination, traumatic stress).

Advocacy for personal, family, community, and global health can influence and change the interaction of people and their health.

- 2.1.8.CHSS.6: Develop an advocacy plan regarding a health issue and share this information in an appropriate setting.
- 2.1.8.CHSS.7: Collaborate with other students to develop a strategy to address health issues related to climate change.

Different people have different capacities to deal with different situations and being aware of a wide variety of tools and resources is beneficial.

- 2.1.8.CHSS.8: Analyze difficult situations that might lead to feelings sadness, anxiety and or depression and identify individuals, agencies or places in the community where assistance may be available.

## 2.3 Safety

### Personal Safety

#### Health Conditions, Diseases and Medicines

Diseases can be contracted from a variety of sources and choices individuals make may contribute to or prevent a person from being susceptible to a disease or health condition.

- 2.3.8.HCDM.1: Justify how the use of universal precautions, sanitation and waste disposal, proper food handling and storage, and environmental controls can prevent diseases and health conditions.
- 2.3.8.HCDM.2: Determine the role of genetics in being susceptible to disease and health conditions and identify the types of behavior that might reduce the risk factors.
- 2.3.8.HCDM.3: Describe behaviors which may contribute to or prevent a person from being susceptible to disease and illness (e.g., cardiovascular, stroke, hepatitis, sexually transmitted infections (STIs), HIV/AIDS, breast cancer, HPV, testicular cancer).

The degree to which an individual is impacted by a health condition or disease can be affected by their immune system and treatment strategies.

- 2.3.8.HCDM.6: Explain how the immune system fights disease.
- 2.3.8.HCDM.7: Explain how certain methods of disease prevention, treatment strategies, and appropriate medicine use promote health-enhancing behaviors.

#### Interdisciplinary connections across content areas

- LA.WHST.6-8.2.D - Use precise language and domain-specific vocabulary to inform about or explain the topic.
- LA.WHST.6-8.4 - Produce clear and coherent writing in which the development, organization, voice, and style are appropriate to task, purpose, and audience.

- LA.WHST.11-12.6 - Use technology, including the Internet, to produce, share, and update writing products in response to ongoing feedback, including new arguments or information.

#### Inclusion of the Career Ready Practice Standards

- CRP.K-12.CRP4: Communicate clearly and effectively and with reason.

#### Integration of 21<sup>st</sup> Century Skills through NJSL 9

- CAEP.9.2.8.B.3: Evaluate communication, collaboration, and leadership skills that can be developed through school, home, work, and extracurricular activities for use in a career.

#### Integration of Technology Standards through the NJSL

TECH.8.1.8.A.3: Use and/or develop a simulation that provides an environment to solve a real world problem or theory.

### **Transfer**

---

### **Essential Questions**

---

- Why is it important to know the building blocks for the human body?
- How does understanding the major body systems and their functions impact health?
- What are some positive ways to take care of your body systems?

### **Essential Understandings**

---

- taking care of your body is a lifelong process that must start at an early age.
- all body systems work together to allow you to function.

## **Students Will Know**

---

- the basic components of the human body and their functions.
- the major body systems.
- ways to maintain and take care of the body.

## **Students Will Be Skilled At**

---

key terms and concepts, including: cells, tissues, organs, body systems, skeletal system, joints, muscular system, muscles, digestive system, digestion, excretory system, circulatory system, heart, blood pressure, lungs, respiratory system, diaphragm, nervous system, neurons, spinal cord.

## **Evidence/Performance Tasks**

---

When taking a Physical Education or Health course, students demonstrate differentiated abilities to answer the essential questions and meet course objectives through formative and summative assessments. Evidence of progression in answering the essential questions and meeting course objectives demonstrates the development of proficiency over time. The performance tasks below are implemented as benchmark assessments and, based on individual student readiness and performance, can be implemented as formative and/or summative assessments. Student proficiency allows for additional or alternative assessment based on demonstration or absence of skill.

- participate in every class activity designed to enhance student knowledge of personal health.
- act respectfully and follow the rules.
- complete homework, group work, quizzes, tests, and projects that will evaluate understanding of proper ways to maintain personal hygiene, and what to look for when choosing personal hygiene products.
- apply knowledge of the importance of personal health and hygiene to one's own personal life.
- develop personal health goals to improve one's personal health and hygiene.
- answer the essential questions.

## **Learning Plan**

---

- Introduce the unit: personal health
- Discuss key terms and concepts such as: hygiene, plaque, sunscreen, acne, dandruff, astigmatism, prescription, over the counter medication, side effects, tolerance, drug misuse.
- Apply knowledge of personal health and hygiene to personal life.
- Review all material covered as it pertains to personal health and hygiene.
- Assess understanding through class participation, class work, projects, group work, quizzes and tests

that assess knowledge of the importance of maintaining personal health and hygiene.

## **Materials**

---

Google classroom/ technology access

Projector

Construction paper

Markers

Course videos

Handouts

Associated web content and media sources are infused into the unit as applicable and available

In addition the materials above, the link connects to district approved textbooks and resources utilized in this course

### [CORE BOOK LIST](#)

The materials used in this course allow for integration of a variety of instructional, supplemental, and intervention materials that support student learners at all levels in the school and home environment.

## **Suggested Strategies for Modifications**
