

Unit 01 Reading: We are Readers

Content Area: **English Language Arts**

Course(s):

Time Period: **Trimester 1**

Length: **12 weeks**

Status: **Published**

Brief Summary of Unit

In this unit, students will be exposed to a variety of books and become familiar with the concepts of print. The unit will set strong expectations for a balanced literacy approach as taught through a workshop model. One goal of the unit is to reinforce early reading behaviors and begin initial explicit reading instruction through shared reading. In this way, students read and reread books they already know to gain a deeper understanding and comprehend what was read. Also, students will become familiar with partnership work; they will learn how to read together and how to work out problems in partnerships without depending on the teacher.

This unit is designed to be part of a developmental progression across grade levels and make interdisciplinary connections across content areas including physical and social sciences, technology, career readiness, cultural awareness, and global citizenship. During this course, students are provided with opportunities to develop skills that pertain to a variety of careers.

Essential Questions

- How can I learn to read books “as best I can” both by myself and with friends, during the whole reading time?
- How can I come back to books that people have read to me over and over and read those same books in ways that make the stories come out?
- How do books go? How can I use what I already know about books to help me to “read” my own way?

Students Will Know/Students Will Be Skilled At

- the parts of a book
- how stories tend to unfold
- well known books and reread them even better
- how to share ideas with a partner
- how to make connections within and across text

- Conducting a picture walk of a book
- Participating in shared reading experiences
- Retelling their favorite emergent story books
- Following a read aloud or shared story
- Building reading stamina when looking at books independently and with a partner

Evidence/Performance Tasks

Students demonstrate differentiated proficiency through both formative and summative assessments in the classroom. Based on individual student readiness and performance, assessments can be implemented as formative and/or summative.

Developmental progression across years in both reading and writing is evidenced by multiple benchmark assessment screeners, administered three times per year. Follow up diagnostic assessments are used to target skill remediation. Student proficiency allows for additional or alternative assessment based on demonstration or absence of skill.

The performance tasks listed below are examples of the types of assessments teachers may use in the classroom and the data collected by the district to track student progress.

Formative Assessments

- Observations
- Accountable Talk--Knee Talking, Sharing out
- Reading Conferences
- Post-it Board

Learning Plan

Primary reading instruction for the Cranford Public Schools is literature and informational text-based and follows a balanced literacy approach through a number of strategies and techniques in Reading Workshop. These include interactive read alouds and mini lessons which provide instruction to the whole class. Guided Reading and Small-Group work will provide small group instruction around specific skills. One-to-one conferencing and partnership discussions will be part of the workshop as well. Daily word work emphasizing phonics and phonemic awareness is embedded within this structure and uses a multisensory approach to instruction. Students will select from authentic literature at their independent and instructional reading levels.

For teaching purposes, see attached template for structure of a Reading/Writing Workshop lesson. Change red font to match your teaching point. Click [here](#).

Lessons should follow the mini-lesson format:

- Teaching point(s) for each lesson
- Connection: Connects new learning to previous learning/lessons
- Teach/Modeling: Uses "think alouds" when modeling what you expect students to do
- Guided Practice/Active Engagement: Guides students through practice of the teaching point
- Link to Independent Practice: Helps writers understand the purpose for the writing they are about to do and the skills/craft they will be practicing/applying independently as good writers
- Independent Writing/Student Conferences: Provides time for students to do independent writing while teacher confers with individual students, works with small groups, or writing clubs*.
- Closure/Sharing: Pull students back together and recognize the work they have done relating to the teaching point. (See end of section for closure ideas.)

Core Teaching Points to Level A

- Readers use picture power.
- Readers use snap word power.
- Readers use pointer power.

- Readers look for the pattern on the first page.
- Readers remember some of the things in the “list” of their book.
- Readers smooth out their reading to make it sound like talking.

Please see the [Cranford Public School Grades K-5 Google Folder](#) for instructional materials to identify teaching points and design strategy lessons for those above or below grade level reading.

Readers who have been identified as ready for leveled text can work in both story books and leveled text to practice both reading pictures and reading words; teacher will conference using research-decide-teach methodology to elevate each reader’s skills and habits. Individual conferences with each student will address specific needs of the reader.

Teachers may personalize instruction during this unit and address the distinct learning needs, interests, aspirations, or cultural backgrounds of individual students.

For Word Study, please refer to the [Cranford Scope and Sequence](#) and the [Phonological Awareness Scope and Sequence](#).

Detailed Curriculum Map

[Teaching Points and lessons](#) are located in the K-5 folder under curriculum for Language Arts. These curriculum unit guides include not only aligned teaching points to standards, but also specific lessons and appropriate resources. Guidelines for preparing to teach the unit as well as goals for the end of the unit are outlined. Academic vocabulary and prerequisite skills are identified. Essential questions and possible assessments are detailed as well.
