

Unit 5 Reading: Growing Knowledge Together--Non Fiction Reading Clubs

Content Area: **English Language Arts**
Course(s):
Time Period: **Trimester 3**
Length: **5-6 Weeks**
Status: **Published**

Brief Summary of Unit

In this unit, you will strive both to improve your second graders' nonfiction reading skills, and to work on their skills of speaking and listening. You will begin by revisiting earlier teaching, reminding children of the essential habits of mind that make for proficient nonfiction reading and tackling difficulty in texts. Once children are doing this work again, you'll remind them to continue conversations around nonfiction texts. But this time, you will teach them more complex ways of thinking collaboratively. Students will move from simply learning what the author is aiming to teach to developing their own ideas about the texts. Then, children will compare and contrast information and ideas within books, across books, and across baskets, building on the work of the first two bends and this year's earlier units.

Because students are reading non-fiction and learning about varied ideas while comparing and contrasting texts, the unit lends itself to interdisciplinary work, specifically in science and social studies.

This unit is designed to be part of a developmental progression across grade levels and make interdisciplinary connections across content areas including physical and social sciences, technology, career readiness, cultural awareness, and global citizenship. During this course, students are provided with opportunities to develop skills that pertain to a variety of careers.

Revision: June 2024

Essential Questions

Bend I: How can readers talk with partners before, during, and after reading nonfiction texts in order to deepen their understanding of a topic?

Bend II: How can a reader build knowledge around a topic by reading across a text set, collaborating with book club members, talking and thinking about

that topic together, and leaning on executive-functioning skills to utilize nonfiction reading strategies?

Bend III: How can a reader build knowledge of interest-based topics with club members by making plans to read that match a reader's interests and by

considering why a topic matters to or affects a reader's life?

Let's Gather Curriculum

1. How can readers learn information about a topic by reading several texts and then teaching others about a topic using expert vocabulary?

2. What can readers learn about insects?

Evidence/Performance Tasks

Students demonstrate differentiated proficiency through both formative and summative assessments in the classroom. Based on individual student readiness and performance, assessments can be implemented as formative and/or summative.

Developmental progression across years in both reading and writing is evidenced by multiple benchmark assessment screeners, administered three times per year. Follow up diagnostic assessments are used to target skill remediation. Student proficiency allows for additional or alternative assessment based on demonstration or absence of skill.

The performance tasks listed below are examples of the types of assessments teachers may use in the classroom and the data collected by the district to track student progress.

Formative Assessments*

Learning Plan

Primary reading instruction for the Cranford Public Schools embraces a centrist approach, employing both structured and balanced literacy practices to both decode *and* comprehend print.

To teach decoding, reading instruction follows a structured literacy approach through an number of multi sensory strategies and research-used techniques. Daily word work emphasizing phonics and phonemic awareness uses a multisensory approach to instruction. Decodable and controlled texts are used. For Word Study, please refer to the [Cranford Scope and Sequence](#).

To teach comprehension, reading instruction is literature and informational text-based and follows a balanced literacy approach through a number of strategies and techniques in Reading Workshop These include interactive read-alouds, mini lessons, shared reading, guided reading, independent reading, small group strategy instruction, one-to-one conferencing, and partnership discussions. Students will select from authentic literature at their independent reading levels. Teachers will focus on the needed skills and behaviors identified on the Continuum at each student's instructional reading level. Grade level indicators are outlined above. Individual conferences with each student will address specific needs of the reader.

During reading workshop, teachers follow the mini-lesson format:

- Teaching point(s) for each lesson
- Connection: Connects new learning to previous learning/lessons
- Teach/Modeling: Uses "think aloud" when modeling what you expect students to do
- Guided Practice/Active Engagement: Guides students through practice of the teaching point
- Link to Independent Practice: Helps writers understand the purpose for the writing they are about to do and the skills/craft they will be practicing/applying independently as good writers
- Independent Writing/Student Conferences: Provides time for students to do independent writing while teacher confers with individual students, works with small groups, or writing clubs.
- Closure/Sharing: Pull students back together and recognize the work they have done relating to the teaching point. (See end of section for closure ideas.)

For teaching purposes, see attached template for structure of a Reading Workshop lesson. (Change the red font to match your teaching point). Click [here](#).)

Please see the Cranford Public School [Grades K-5 Google Folder](#) for instructional materials to identify teaching points and design strategy lessons for those above or below grade level reading. The bends below provide detailed teaching points and lesson ideas.

Teachers may personalize instruction during this unit and address the distinct learning needs, interests, aspirations, or cultural backgrounds of individual students.

Framework for Alternative Setting (LEAP Program at Lincoln School)

In our K–5 alternative school setting, each class consists of students who require a highly personalized approach to reading instruction. The district’s core Reading Units of Study will continue to serve as the primary reading curriculum framework; however, lessons will be further adapted to ensure accessibility and engagement for all learners. Teachers will use a combination of pacing adjustments, flexible timing, and individualized goal setting to meet students at their current skill levels. Instruction will be delivered through a blend of whole-group, small-group, and one-on-one settings, with intentional scaffolds in place to build confidence and reduce frustration.
