## **Evidence/Performance Tasks**

---

Students demonstrate differentiated proficiency through both formative and summative assessments in the classroom. Based on individual student readiness and performance, assessments can be implemented as formative and/or summative.

Developmental progression across years in media is evidenced through benchmark assessments as part of the media specialist's Student Growth Objective (SGO). Follow up diagnostic assessments are used to target skill remediation. Student proficiency allows for additional or alternative assessment based on demonstration or absence of skill.

The performance tasks listed below are examples of the types of assessments teachers may use in the classroom and the data collected by the district to track student progress.

- Benchmark-Students will create a bookmark showing proper book care rules.
- Formative-Students will return materials on a regular basis.
- Formative-Students will self-assessment their performance.
- Formative-Students will use books in a proper manner.
- Formative-Through discussion, students will describe the various materials that can be found in a library media center.
- Summative-Role play appropriate library citizenship based on skills related to acceptable ways to take care of library materials.

## **Learning Plan**

---

Media Specialist may personalize instruction during this unit and address the distinct learning needs, interests, aspirations, or cultural backgrounds of individual students.

Media Specialists at the elementary level design their own unique lesson plans in order to incorporate the essential questions provided in this unit. The order in which this information is presented is dependent upon the variables specific to each elementary school community. For example, students may be called to the carpet for a lesson followed by guided practice, then independent practice. After the lesson, students will

check out books. Library Media time ends with an electronic story so that the media specialist can assist and model proper checkout procedures with students.

Kindergarten students will understand that libraries provide a diverse collection of materials and there are responsible ways to take care of these materials. Lessons will focus on book care and proper use of technology devices. Suggested activities are listed below for this unit:

- Create a bookmark to encourage proper book care.
- Introduce key vocabulary: book care, bookmark, spine, bookshelf, book cart, patron, and technology devices.
- Mini lesson may include: proper book care using examples of mistreated books, demonstrating proper handling skills for print (e.g., how to open and hold properly, turn pages correctly, using bookmarks, and returning materials to proper place), demonstrating proper handling of technology devices.
- Model proper handling skills for print (e.g., how to open and hold properly, turn pages correctly, use bookmarks, and return materials to proper place).
- Preview the essential questions and connect to learning throughout the unit..
- Read relevant fiction and nonfiction books.

## **Materials**

---

The materials used in this course allow for integration of a variety of instructional, enrichment, and intervention materials that support student learners at all levels in the school and home environments.
