Essential Questions

- How can I become an effective user of the library media center?
- Why is it a student's responsibility to take care of library materials within the library media center and when borrowed?
- Why is it important to demonstrate good library citizenship?
- Why is it important to take proper care of diverse materials in the library media centers?

Students Will Know/Students Will Be Skilled At

- Answering the essential questions.
- Describing and demonstrating proper ways to care for materials and books.
- Explain the importance of caring for a book.
- There are responsible ways to care for books and materials that are borrowed from a library media center.

- To ask assistance from the media specialist if they find a book needs repair.

Evidence/Performance Tasks

Students demonstrate differentiated proficiency through both formative and summative assessments in the classroom. Based on individual student readiness and performance, assessments can be implemented as formative and/or summative.

Developmental progression across years in media is evidenced through benchmark assessments as part of the media specialist's Student Growth Objective (SGO). Follow up diagnostic assessments are used to target skill remediation. Student proficiency allows for additional or alternative assessment based on demonstration or absence of skill.

The performance tasks listed below are examples of the types of assessments teachers may use in the classroom and the data collected by the district to track student progress.

- Benchmark-Students will create a bookmark showing proper book care rules.
- Formative-Role play appropriate library citizenship based on skills related to proper use of materials/technology.
- Formative-Students will self-assess their performance.
- Formative-Students will use technology/books in a proper manner.
- Summative-Evaluate book care scenarios through discussion and role play.

Learning Plan

Media Specialist may personalize instruction during this unit and address the distinct learning needs, interests, aspirations, or cultural backgrounds of individual students.

Media Specialists at the elementary level design their own unique lesson plans in order to incorporate the essential questions provided in this unit. The order in which this information is presented is dependent upon the variables specific to each elementary school community. For example, students may be called to the carpet for a lesson followed by guided practice, then independent practice. After the lesson, students will check out books. Library Media time ends with an electronic story so that the media specialist can assist and model proper checkout procedures with students.

First Grade students will understand that libraries provide a diverse collection of materials and there are responsible ways to take care of these materials. Lessons will focus on book care and proper use of technology devices. Suggested activities are listed below for this unit:

- Demonstrate proper handling of technology tools.
- Demonstrate proper handling skills for print (e.g., how to open and hold properly, turn pages correctly, use bookmarks, and return materials to proper place).
- Introduce key vocabulary: book care, bookmark, spine, pages, and technology devices.
- Mini lesson may include: proper book care using examples of mistreated books and demonstrating properly handling of technology.
- Preview the essential questions and connect to learning throughout the unit.
- Read relevant fiction and nonfiction books.
- Role play scenarios (ex: locating a book/book care, how to handle a technology device, and etc).
- Students create a bookmark to encourage proper book care.

Materials

The materials used in this course allow for integration of a variety of instructional, enrichment, and intervention materials that support student learners at all levels in the school and home environments. Associated web content and media sources are infused into the unit as applicable and available.
